i. International Financial Reporting Standards (IFRS) earnings per share (EPS) for the second quarter of 2017 included an aggregate charge of \$0.09 (pre-tax) per share for employee stock-based compensation expense, amortization of intangible assets (excluding computer software) and restructuring charges. This aggregate charge is within the range of between \$0.06 to \$0.12 per share that we provided on April 20, 2017 for these items (see the tables in Schedule 1 attached hereto for per-item charges).

IFRS EPS for the second quarter of 2017 was favorably impacted by a \$0.03 per share deferred income tax benefit related to the write-downs and impairments of our solar assets recorded in the current and prior quarters. In connection with our exit from the solar panel manufacturing business, we withdrew one of our tax incentives in Thailand during the second quarter of 2017. The withdrawal of this incentive allows us to apply future tax losses arising from the ultimate disposition of our solar assets against other fully taxable profits in Thailand, resulting in the deferred income tax benefit.

- ii. IFRS EPS and adjusted EPS (non-IFRS) for the second quarter of 2016 were negatively impacted by a \$0.02 per share income tax expense related to taxable foreign exchange resulting from the weakening of the Malaysian ringgit and Chinese renminbi, compared to the U.S. dollar.

Non-IFRS measures do not have any standardized meaning prescribed by IFRS and therefore may not be comparable to similar measures presented by other public companies that use IFRS or other generally accepted accounting principles (GAAP). See "Non-IFRS Supplementary Information" below for information on our rationale for the use of non-IFRS measures, and Schedule 1 for, among other items, non-IFRS measures included in this press release, as well as their definitions, uses, and a reconciliation of non-IFRS to IFRS measures.

End Markets by Quarter as a Percentage of Total Revenue

As noted in the prior quarter, as part of our recent organizational initiatives, we have aligned our end markets into two customer focused areas: Advanced Technology Solutions (ATS) and Connectivity & Cloud Solutions (CCS). ATS consists of our former Diversified and Consumer end markets, and CCS consists of our Communications and Enterprise end markets. Due to the decreasing size of our Consumer end market, we combined it with our previously-reported Diversified end market to form our ATS end market commencing in the first quarter of 2017. As a result, ATS consists of our aerospace and defense, industrial, smart energy, healthcare, semiconductor equipment and consumer. Also commencing in the first quarter of 2017, due to the converging technologies of our Storage and Servers end markets, we combined them into a single "Enterprise" end market for reporting purposes. All period percentages herein reflect these changes.

| | 2016 | | | | | 2017 | |
|-------------------------------|---------|---------|---------|---------|---------|---------|---------|
| | Q1 | Q2 | Q3 | Q4 | FY | Q1 | Q2 |
| Communications | 38% | 41% | 43% | 44% | 42% | 42% | 44% |
| Advanced Technology Solutions | 37% | 33% | 32% | 29% | 32% | 34% | 31% |
| Enterprise | 25% | 26% | 25% | 27% | 26% | 24% | 25% |
| Revenue (in billions) | \$ 1.35 | \$ 1.49 | \$ 1.55 | \$ 1.62 | \$ 6.02 | \$ 1.47 | \$ 1.56 |

Third Quarter 2017 Outlook

For the quarter ending September 30, 2017, we anticipate revenue to be in the range of \$1.5 billion to \$1.6 billion, non-IFRS operating margin to be 3.7% at the mid-point of our expectations, and non-IFRS adjusted earnings per share to be in the range of \$0.28 to \$0.34. We expect a negative \$0.06 to \$0.12 per share (pre-tax) aggregate impact on net earnings on an IFRS basis for employee stock-based compensation expense, amortization of intangible assets (excluding computer software) and restructuring charges. We cannot predict changes in currency exchange rates, the impact of such changes on our operating results, or the degree to which we will be able to manage such impacts.

We do not provide reconciliations for forward-looking non-IFRS financial measures, as we are unable to provide a meaningful or accurate calculation or estimation of reconciling items and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the timing or amount of various events that have not yet occurred, are out of our control and/or cannot be reasonably predicted, and that would impact the most directly comparable forward-looking IFRS financial measure. For these same reasons, we are unable to address the probable significance of the unavailable information. Forward-looking non-IFRS financial measures provided without the most directly comparable IFRS financial measures may vary materially from the corresponding IFRS financial measures.
