QUESTIONS AND ANSWERS ON VOTING AND PROXIES

Q. WHAT DECISIONS WILL I BE ASKED TO MAKE?

A. Shareholders will be voting on the following matters: the election of each individual director to the Board of the Corporation for 2010, the appointment of an auditor for the Corporation for 2010 and authorization of the Board to fix the auditor's remuneration, and any other matters as may properly be brought before the Meeting. The Corporation's Board of Directors and management recommend that you vote in favour of each of the proposed nominees for election as directors of the Corporation, and in favour of the appointment of KPMG LLP as auditor of the Corporation to hold office until the next annual meeting of shareholders and the authorization of the Board of Directors of the Corporation to fix the remuneration to be paid to the auditor.

Q. WHO IS SOLICITING MY PROXY?

A. **The Corporation's management is soliciting your proxy.** All associated costs of solicitation will be borne by the Corporation. The solicitation will be primarily by mail, but proxies may also be solicited personally by regular employees of the Corporation for which no additional compensation will be paid. The Corporation anticipates that copies of this Circular and accompanying proxy will be sent to shareholders on or about March 23, 2010.

Q. WHO IS ENTITLED TO VOTE?

A. The holders of Subordinate Voting Shares or Multiple Voting Shares as at the close of business on March 12, 2010 or their duly appointed representatives are entitled to vote.

As at February 22, 2010, 210,992,933 Subordinate Voting Shares (which carry one vote per share and represent approximately 31% of the voting power of the Corporation's securities) and 18,946,368 Multiple Voting Shares (which carry 25 votes per share and represent approximately 69% of the voting power of the Corporation's securities) were issued and outstanding.

Q. HOW DO I EXERCISE MY VOTE (AND BY WHEN)?

- A.** Non-registered shareholders should refer to *How Do I Vote If I Am a Non-Registered Shareholder?* on page 3 of this Circular.

If you are a registered shareholder, you may exercise your right to vote by attending and voting your shares in person at the Meeting, by mailing in the attached form of proxy or by voting by telephone or internet.

If you vote your shares in person, your vote will be taken and counted at the Meeting.

If you choose to vote your shares using the form of proxy, your proxy form must be received by the Corporation's registrar and transfer agent, Computershare Investor Services Inc. ("Computershare"), 100 University Avenue, 9th Floor, Toronto, Ontario, Canada M5J 2Y1, not later than 5:00 p.m. (EDT) on Tuesday, April 20, 2010. If the Meeting is adjourned or postponed, Computershare must receive the form of proxy at least 48 hours, excluding Saturdays, Sundays and holidays, before the rescheduled Meeting. Alternatively, the form of proxy may be given to the Chairman of the Meeting at which the form of proxy is to be used.

If you choose to vote your shares by telephone or internet, your vote must be received no later than 5:00 p.m. (EDT) on Tuesday, April 20, 2010.

Q. WHAT IF I SIGN THE FORM OF PROXY ENCLOSED WITH THIS CIRCULAR?

- A.** Signing the form of proxy gives authority to Mr. Robert L. Crandall or Mr. Craig H. Muhlhauser, or their designees, to vote your shares at the Meeting, unless you give authority to another person to vote your shares by providing that person's name on the form of proxy.

Q. CAN I APPOINT SOMEONE OTHER THAN THE PERSONS NAMED IN THE FORM OF PROXY ENCLOSED WITH THIS CIRCULAR TO VOTE MY SHARES AT THE MEETING?

- A.** **Yes. Write the name of the person of your choice in the blank space provided in the form of proxy. The person whom you choose need not be a shareholder.**

Please ensure that the person you have appointed is attending the Meeting and is aware that he or she will be voting your shares. Proxyholders should speak to a representative of Computershare upon arriving at the Meeting.

Q. HOW WILL MY SHARES BE VOTED AT THE MEETING IF I GIVE MY PROXY?

- A.** On any ballot that may be called for, the shares represented by a properly executed proxy given in favour of the persons designated by management of the Corporation in the enclosed form of proxy will be voted or withheld from voting in accordance with the instructions given on the ballot, and if you specify a choice with respect to any matter to be acted upon, the shares will be voted accordingly.

The persons named in the form of proxy must vote or withhold from voting your shares in accordance with your instructions on the form of proxy. **In the absence of such directions and unless you specify a person other than Mr. Crandall or Mr. Muhlhauser to vote your shares, your shares will be voted in favour of the election to the Corporation's Board of the nominees proposed by management and in favour of the appointment of KPMG LLP as the Corporation's auditor for 2010 and the authorization of the Board to fix the auditor's remuneration.**

Q. IF I CHANGE MY MIND, CAN I TAKE BACK MY PROXY ONCE I HAVE GIVEN IT?

- A.** Yes, you may revoke any proxy that you have given at any time prior to its use at the Meeting for which it was given or any adjournment or postponement thereof. In addition to revocation in any other manner permitted by law, you may revoke the proxy by preparing a written statement, signed by you or your attorney, as authorized, or if the proxy is given on behalf of a corporation, by a duly authorized officer or attorney of such corporation, and deposited with the Chairman of the Meeting on the day of the Meeting, or any adjournment or postponement thereof, prior to the proxy being voted, or by transmitting, by telephonic or electronic means, a revocation signed by electronic signature by you or by your attorney, who is authorized in writing, to the registered office of the Corporation at any time up to and including the last business day preceding the day of the

Meeting, or any adjournment or postponement thereof, at which the proxy is to be used.

Note that your participation in person in a vote by ballot at the Meeting will automatically revoke any proxy previously given by you regarding business considered by that vote.

Q. WHAT IF AMENDMENTS ARE MADE TO THE SCHEDULED MATTERS OR IF OTHER MATTERS ARE BROUGHT BEFORE THE MEETING?

- A.** The accompanying form of proxy confers discretionary authority upon the proxy nominees in respect of any amendments or variations to matters identified in the Notice of Meeting or other matters that may properly come before the Meeting or any adjournment(s) or postponement(s) thereof.

As of the date of this Circular, the Corporation's management was not aware of any such amendments, variations or other matters to come before the Meeting. However, if any amendments, variations or other matters which are not now known to management should properly come before the Meeting or any adjournment(s) or postponement(s) thereof, the shares represented by proxies in favour of the management nominees will be voted on such matters in accordance with the best judgment of the proxy nominees.

Q. HOW WILL THE VOTES BE COUNTED?

- A.** Each question brought before the Meeting is determined by a majority of the votes cast on the question by both Subordinate Voting Shareholders and Multiple Voting Shareholders voting as a single class.

Q. HOW DO I VOTE IF I AM A NON-REGISTERED SHAREHOLDER?

- A.** The form of proxy provided with this Circular will indicate whether or not you are a registered shareholder. Non-registered shareholders hold their shares through intermediaries, such as banks, trust companies, securities dealers or brokers. If you are a non-registered shareholder, the intermediary holding your shares should provide a voting instruction form which you must complete, sign and return in accordance with the instructions set forth therein. This form will constitute voting instructions which the intermediary must follow.

Alternatively, the intermediary may provide you with a signed form of proxy. In this case, you do not need to sign the form of proxy, but should complete it and forward it directly to Computershare.

Should you, as a non-registered shareholder, wish to attend the Meeting and vote your shares in person, or have another person attend and vote your shares on your behalf, you should fill in your own name, or the name of your appointee, in the space provided on the form of proxy. An intermediary's voting instruction form will likely provide corresponding instructions to cast your vote in person. In any case, you should carefully follow the instructions provided by the intermediary and contact the intermediary promptly if you require assistance.

If you vote by mail and would subsequently like to change your vote (whether by revoking a voting instruction or by revoking a proxy), you should contact the intermediary to discuss whether this is possible and, if so, what procedures you should follow.

Q. HOW CAN I CONTACT THE INDEPENDENT DIRECTORS AND NON-EXECUTIVE CHAIRMAN?

(1) The number of shares beneficially owned, or controlled or directed, directly or indirectly, by Onex Corporation ("Onex") includes 945,010 Multiple Voting Shares held by a wholly-owned subsidiary of Onex, 1,025,148 Subordinate Voting Shares held in trust for Celestica Employee Nominee Corporation as agent for and on behalf of employees of Celestica pursuant to Celestica's employee share purchase plan and 102,597 Subordinate Voting Shares directly or indirectly held by certain officers of Onex, which Onex or such other person has the right to vote.

(2) The number of shares beneficially owned, or controlled or directed, directly or indirectly, by Mr. Schwartz includes 120,657 Subordinate Voting Shares owned by a company controlled by Mr. Schwartz and all of the 18,946,368 Multiple Voting Shares and 1,451,320 Subordinate Voting Shares beneficially owned, or controlled or directed, directly or indirectly, by Onex, of which 688,807 Subordinate Voting Shares are subject to options granted to Mr. Schwartz pursuant to certain management investment plans of Onex and 1,025,148 Subordinate Voting Shares held in trust for Celestica Employee Nominee Corporation as agent for and on behalf of employees of Celestica pursuant to Celestica's employee share purchase plan. Mr. Schwartz is a director of the Corporation and the Chairman of the Board and Chief Executive Officer of Onex, and owns Multiple Voting Shares of Onex carrying the right to elect a majority of the Onex board of directors. Accordingly, under applicable securities laws, Mr. Schwartz is deemed to be the beneficial owner of the Celestica shares owned by Onex; Mr. Schwartz has advised the Corporation, however, that he disclaims any rights of such beneficial ownership of the shares held by Onex and Celestica Employee Nominee Corporation.

(3) This information reflects share ownership as of December 31, 2009 and is taken from Schedule 13G filed by Mackenzie Financial Corporation with the SEC on February 2, 2010.

Agreement for the Benefit of Holders of Subordinate Voting Shares

Onex, which, directly or indirectly, owns all of the outstanding Multiple Voting Shares, has entered into an agreement with the Corporation and with Computershare Trust Company of Canada, as trustee for the benefit of the holders of the Subordinate Voting Shares, to ensure that the holders of the Subordinate Voting Shares will not be deprived of any rights under applicable take-over bid legislation to which they would be entitled in the event of a take-over bid as if the Multiple Voting Shares and Subordinate Voting Shares were of a single class of shares. Subject to certain permitted forms of sale, Onex has agreed that it, and any of its affiliates which may hold Multiple Voting Shares from time to time, will not sell any Multiple Voting Shares, directly or indirectly, pursuant to a take-over bid (as that term is defined under applicable securities legislation and the agreement) under circumstances in which any applicable securities legislation would have required the same offer or a follow-up offer to be made to holders of Subordinate Voting Shares if the sale had been a sale of Subordinate Voting Shares rather than Multiple Voting Shares, but otherwise on the same terms.

The Articles of the Corporation provide "coat-tail" protection to the holders of the Subordinate Voting Shares by providing that the Multiple Voting Shares will be converted automatically into Subordinate Voting Shares upon any transfer thereof, except (a) a transfer to Onex or any affiliate of Onex, or (b)(i) a transfer of 100% of the outstanding Multiple Voting Shares to a purchaser who also has offered to purchase all of the outstanding Subordinate Voting Shares for a per share consideration identical to, and otherwise on the same terms as, that offered for the Multiple Voting Shares, and (ii) the Multiple Voting Shares held by such purchaser thereafter shall be subject to the provisions relating to conversion as if all references to Onex were references to such purchaser. In addition, if (a) any holder of any Multiple Voting Shares ceases to be an affiliate of Onex, or (b) Onex and its affiliates cease to have the right, in all cases, to exercise the votes attached to, or to direct the voting of, any of the Multiple Voting Shares held by Onex and its affiliates, such Multiple Voting Shares shall convert automatically into Subordinate Voting Shares on a one-for-one basis. See footnote 3 to Item 7A on page 93 in the Corporation's Annual Report on Form 20-F.

INFORMATION RELATING TO OUR DIRECTORS

Election of Directors

The seven individuals listed below are being recommended for election as directors of the Corporation. If elected, they will hold office until the close of the next annual meeting of shareholders or until their successors are elected or appointed, unless such office is earlier vacated in accordance with the Corporation's By-laws. All of the proposed nominees are currently directors of the Corporation. The Articles of the Corporation provide for a minimum of three and a maximum of 20 directors. The Board of Directors of the Corporation (the "Board of Directors" or the "Board") has the authority to set the number of directors of the Corporation to be elected at the Meeting and has set that number at seven.

Unless authority to do so is withheld, proxies given pursuant to this solicitation by the management of the Corporation will be voted in favour of each of the proposed nominees for election as directors. Management of the Corporation does not contemplate that any of the nominees will be unable, or for any reason unwilling, to serve as a director, but if that should occur for any reason prior to their election, the proxy nominees may, in their discretion, nominate and vote for another nominee.

There are no contracts, arrangements or understandings between any director or executive officer or any other person pursuant to which any of the nominees have been nominated.

The Board adopted a policy that requires in an uncontested election of directors that shareholders will be able to vote in favour of, or to withhold from voting, separately for each director nominee. If, with respect to any particular nominee, other than the controlling shareholder or a representative of the controlling shareholder, the number of shares withheld from voting by shareholders other than the controlling shareholder and its associates exceeds the number of shares that are voted in favour of the

nominee, then the Board will determine, and in so doing will give due weight to the rights of the controlling shareholder, whether to require the nominee to resign from the Board. If the Board determines that such a nominee should resign, the nominee will resign and the Board will accept the resignation. It is expected that such a determination by the Board will be made, and announced, within 90 days after the applicable shareholders' meeting. Subject to any corporate law restrictions, the Board may leave any resultant vacancy unfilled until the next annual shareholders' meeting or it may fill the vacancy through the appointment of a new director whom the Board considers to merit the confidence of the shareholders or it may call a special meeting of shareholders at which there will be presented a management slate to fill the vacant position or positions.

The following tables set out certain information with respect to the nominees, including their municipalities of residence; their ages; the year from which each has continuously served as a director of the Corporation; all positions and offices held by them with the Corporation or any of its significant affiliates; their present principal occupations, businesses and employments; and other corporations of which they are directors. For a description of the number of shares, options, deferred share units ("DSUs") and restricted share units ("RSUs") beneficially owned, directly or indirectly, or over which control or direction is exercised by the Corporation's directors, and a description of the DSUs and RSUs, see *Director Compensation* on page 10 and *Compensation Discussion and Analysis* on page 16, respectively of this Circular, and, in the case of securities of the Corporation owned, directly or indirectly, by Mr. Schwartz and his associates and affiliates, also see *Principal Holders of Voting Shares* on page 4.

Director Compensation

Interlocking Directorships

None of the directors of the Corporation serve together as directors of other corporations other than Mr. Schwartz and Mr. Etherington who serve together on the board of directors of Onex.

Director Compensation

Director compensation is set by the Board on the recommendation of the Compensation Committee and in accordance with director compensation guidelines established by the Nominating and Corporate Governance Committee (the "Governance Committee"). Under these guidelines, the Board seeks to maintain director compensation at a level that is competitive with director compensation at comparable companies. The Compensation Committee engaged Towers Watson Inc. ("Towers Watson") to provide benchmarking information in this regard (see page 17 for a discussion regarding the role of Towers Watson). The guidelines also contemplate that at least half of each director's annual retainer and meeting fees be paid in DSUs. Each DSU represents the right to receive one Subordinate Voting Share of the Corporation or an equivalent value in cash when the director ceases to be a director.

2009 Fees

Table 2 sets out the annual retainers and meeting fees paid in 2009 to the Corporation's directors (other than Messrs. Schwartz and Muhlhauser who, as officers of Onex and the Corporation, respectively, did not receive such compensation).

Table 2: Retainers and Meeting Fees for 2009

Annual Board Retainer	\$65,000
Annual Retainer for Non-Executive Chairman ⁽¹⁾	\$130,000
Annual Retainer for Audit Committee Chair	\$20,000
Annual Retainer for Compensation Committee Chair	\$10,000
Annual Retainer for Executive Committee Chair	\$10,000
Board and Committee Per Day Meeting Fee ⁽²⁾	\$2,500
Travel Fee ⁽³⁾	\$2,500
Annual DSU Grant (for directors other than the Chairman)	\$120,000
Annual DSU Grant — Chairman	\$180,000

(1) The non-executive Chairman of the Board also serves as chair of the Governance Committee, for which no additional fee is paid.

(2) Attendance fees are paid per day of meetings, regardless of whether a director attends more than one meeting in a single day, except that a separate attendance fee is paid for each Executive Committee meeting, even if it occurs on the same day as other meetings.

(3) The travel fee is available only to directors who travel outside of their home state or province to attend a Board or Committee meeting.

DSUs

Directors receive half of their annual retainer and meeting fees (or all of such retainer and fees, if they so elect) in DSUs. The number of DSUs granted in lieu of cash meeting fees is calculated by dividing the cash fee that would otherwise be payable by the closing price of Subordinate Voting Shares on the New York Stock Exchange (the "NYSE") on the last business day of the quarter in which the applicable meeting occurred. In the case of annual retainer fees, the number of DSUs granted is calculated by dividing the cash amount that would otherwise be payable quarterly by the closing price of Subordinate Voting Shares on the NYSE on the last business day of the quarter.

Directors also receive annual grants of DSUs. In 2009, each director received an annual grant of \$120,000 worth of DSUs, except for the Chairman, who received an annual grant of \$180,000, and Ms. Koellner, who joined the Board on April 23, 2009 and received an annual grant of \$90,000. The number of DSUs granted is calculated by dividing the cash amount that would otherwise be payable quarterly by the closing price of Subordinate Voting Shares on the NYSE on the last business day of the quarter.

Eligible directors also receive an initial grant of DSUs when they are appointed to the Board. For individuals who become eligible directors after December 31, 2008, the initial grant is equal to the amount of the annual board retainer multiplied by 150% and divided by the closing price of Subordinate Voting Shares on the NYSE on the last business day of the fiscal quarter immediately preceding the date when the individual becomes an eligible director. The DSUs comprising the initial grant vest upon the retirement of the eligible director. However, if an eligible director retires within a year of becoming an eligible director, all of the DSUs comprising the initial grant are forfeited and cancelled. If an eligible director retires less than two years but more than one year after becoming an eligible director, then two-thirds of the DSUs comprising the initial grant are forfeited and cancelled. If an eligible director retires within three years but more than two years after becoming an eligible director, then one-third of the DSUs comprising the initial grant are forfeited and cancelled. Forfeiture does not apply if a director ceases to be a director due to a change of control.

The compensation paid in 2009 by the Corporation to its directors is set out in Table 3. None of the directors received any fee or payment from the Corporation except as set out below. Mr. Schwartz is an officer of Onex and did not receive any compensation in his capacity as a director of the Corporation in 2009; however, Onex did receive compensation for providing the services of Mr. Schwartz as a director as described in *Management Services Agreement* on page 39 of this Circular. Mr. Muhlhauser, as President and Chief Executive Officer of the Corporation, also did not receive any director's fees from the Corporation in 2009.

- (1) The annual retainer, meeting fees and annual grant for 2009 were paid quarterly and the number of DSUs granted in respect of the amounts paid quarterly for each such item was determined using the closing prices of Subordinate Voting Shares on the NYSE on the last business day of each quarter, which were \$3.56 on March 31, 2009, \$6.82 on June 30, 2009, \$9.48 on September 30, 2009 and \$9.44 on December 31, 2009.
 - (2) Ms. Koellner became a director on April 23, 2009.
 - (3) Ms. Koellner and Mr. Ryan were appointed to the Audit, Compensation and Governance Committees as of March 9, 2010.
 - (4) Mr. Love is not standing for re-election and will retire from the Board on April 21, 2010.

The total fees earned by the Board in 2009 were \$696,250. In addition, a total annual grant of DSUs worth \$750,000 and an initial grant of DSUs worth \$180,000 were issued.

Outstanding Option-Based and Share-Based Awards

In 2005, the Corporation amended its Long-Term Incentive Plan ("LTIP") to prohibit the granting of options to acquire Subordinate Voting Shares to directors. Table 4 sets out information relating to option grants to directors which were made between 1998 and 2004 and which remain outstanding. All option grants were made with exercise prices set at the closing market price on the business day prior to the date of grant. Exercise prices range from \$10.62 to C\$72.60. Options vest over three or four years and expire after ten years. The final grant of options occurred on May 10, 2004; those options will expire on May 10, 2014. Mr. Schwartz, as an employee of Onex during that period, was not granted options. Mr. Ryan and Ms. Koellner, both of whom became directors after May 2004, have not been granted any options under the LTIP.

DSUs that were granted prior to January 1, 2007 will be paid out in the form of Subordinate Voting Shares issued from treasury. DSUs granted after January 1, 2007 will be paid out in the form of Subordinate Voting Shares purchased in the open market or an equivalent value in cash. The date used in valuing the DSUs shall be a date within 90 days of the date on which the individual in question ceases to be a director. The DSUs shall be redeemed and payable on or prior to the 90th day following the date on which the individual ceases to be a director. The total number of DSUs outstanding for each director is included in Table 4 under the column share-based awards.

The following table sets out, for each director, information concerning all option-based and share-based awards outstanding as of December 31, 2009 (this includes awards granted before the most recently completed financial year).

(1) Information as to securities beneficially owned, or controlled or directed, directly or indirectly, is not within the Corporation's knowledge and therefore has been provided by each nominee.

(2) Certain Subordinate Voting Shares subject to options granted pursuant to management investment plans of Onex are included as owned beneficially by named individuals although the exercise of these options is subject to Onex meeting certain financial targets. More than one person may be deemed to have beneficial ownership of the same securities.

(3) As described in note 2 to Table 1, Mr. Schwartz is deemed to be the beneficial owner of the 18,946,368 Multiple Voting Shares owned by Onex, which have a market value of \$201,778,819 as of February 22, 2010.

Shareholding Requirements

The Corporation has minimum shareholding requirements for independent directors (the "Guideline"). The Guideline provides that an independent director who has been on the Board:

- for five years or more must hold securities of the Corporation having a market value of at least five times that director's then applicable annual retainer and, after such level of ownership has been obtained, shall continue to invest a significant portion of the annual retainer in securities of the Corporation;
- for two years or more (but less than five years) must hold securities of the Corporation having a market value of at least three times that director's then applicable annual retainer;
- for one year or more (but less than two years) must hold securities of the Corporation having a market value of at least one time that director's then applicable annual retainer; and
- for less than a year are encouraged, but not required, to hold securities of the Corporation.

Although directors will not be deemed to have breached the Guideline by reason of a decrease in the market value of the Corporation's securities, the directors may be required to purchase further securities within a reasonable period of time to comply with the Guideline. The Guideline came into effect on April 22, 2004 and each director's holdings of securities, which for the purposes of the Guideline include all Subordinate Voting Shares, DSUs and RSUs, are reviewed annually each year on December 31. As of December 31, 2009, all of the directors of the Corporation were, or were on track to be, in compliance with the Guideline as set out in the following table.

Table 6: Shareholding Requirements

Shareholding Requirements

(1) Mr. Love is not standing for re-election and will retire from the Board on April 21, 2010.

(2) As Messrs. Muhlhauser and Schwartz are not independent directors, neither of them receives a retainer or other fee for their services as a director (however, Onex did receive compensation for providing the services of Mr. Schwartz as a director as described in *Management Services Agreement* on page 39) and neither is subject to the minimum shareholding requirements of the Guideline.

(3) The value of the aggregate number of Subordinate Voting Shares, DSUs and RSUs held by each director is determined using a share price of \$9.44, which was the closing price of Subordinate Voting Shares on the NYSE on December 31, 2009.

Mr. Crandall is chair of each of the Audit, Governance and Executive Committees.

(2) Mr. Etherington is chair of the Compensation Committee.

INFORMATION ABOUT OUR AUDITOR

Appointment of Auditor

It is proposed that KPMG LLP ("KPMG") be appointed as the auditor of the Corporation to hold office until the close of the next annual meeting of shareholders. KPMG is the current auditor of the Corporation and was first appointed as auditor of the Corporation on October 14, 1997. The Audit Committee of the Board of Directors negotiates with the auditor of the Corporation on an arm's length basis in determining the fees to be paid to the auditor. Such fees have been based upon the complexity of the matters dealt with and the time expended by the auditor in providing services to the Corporation.

Fees Paid to KPMG LLP

	Year Ended December 31 (in millions)	
	2009	2008
Audit Services	\$ 3.4	\$ 4.2
Audit Related Services	\$ 0.3	\$ 0.1
Tax Services	\$ 0.5	\$ 0.6
Total	\$ 4.2	\$ 4.9

The Corporation's Audit Committee believes that the provision of the non-audit services is compatible with maintaining KPMG's independence. KPMG did not provide any financial information systems design or implementation services to the Corporation during 2009.

It is intended that, on any ballot relating to the appointment of the auditor, the shares represented by proxies in favour of the management nominees will be voted in favour of the appointment of KPMG as auditor of the Corporation to hold office until the next annual meeting of shareholders and the authorization of the Board of Directors to fix the remuneration to be paid to the auditor, unless authority to do so is withheld.

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis sets out the policies of the Corporation for determining compensation paid to the Corporation's Chief Executive Officer (the "CEO"), its Chief Financial Officer (the "CFO"), and the three other most highly compensated executive officers (collectively, the "Named Executive Officers" or "NEOs"). A description and explanation of the significant elements of compensation awarded to the NEOs during 2009 is set out in the section entitled *2009 Compensation Decisions* on page 23 of this Circular.

Compensation Objectives

The Corporation's executive compensation philosophies and practices are designed to attract, motivate and retain the leaders who will drive the success of the Corporation. The Corporation benchmarks itself against a comparator group of similarly sized technology companies as set out in Table 8 (the "Comparator Group"), including six direct competitors of the Corporation in the electronics manufacturing services industry: Benchmark Electronics, Inc., Flextronics International Ltd., Jabil Circuit, Inc., Plexus Corp., Sanmina-SCI Corp. and Tyco Electronics Ltd.

Compensation for executives is linked to the Corporation's performance. Target compensation is positioned at the median of the comparator group

for median level performance, with the opportunity for above median compensation for performance that exceeds the median of the Comparator Group and less than median compensation for performance that is below the median of the Comparator Group.

The compensation package is designed to:

- provide competitive fixed compensation (i.e., base salary and benefits) and a substantial amount of at-risk pay, which will be realized through the annual and equity-based incentive plans;
- reward executives for achieving operational and financial results that meet or exceed the Corporation's business plan and that are superior to those of Benchmark Electronics, Inc., Flextronics International Ltd., Jabil Circuit, Inc. and Sanmina-SCI Corp. (collectively, the "EMS Competitors") through both annual incentives and equity-based incentives;
- align the interests of executives and shareholders through equity-based compensation;
- recognize that the executives work as a team to achieve corporate results; and
- ensure direct accountability for the annual operating results and the long-term financial performance of the Corporation.

Independent Advice

The Compensation Committee has engaged Towers Watson as its independent compensation consultant to assist in identifying appropriate comparator companies against which to evaluate the Corporation's compensation levels, to provide data about those companies, and to provide observations and recommendations with respect to the Corporation's compensation practices versus both the comparator group and the market in general.

Management works with Towers Watson to review and, where appropriate, develop and recommend compensation programs that will ensure the Corporation's practices are competitive with market practices. Towers Watson also provides advice to the Compensation Committee on the policy recommendations prepared by management and keeps the Compensation Committee apprised of market trends in executive compensation. Towers Watson attended portions of all Compensation Committee meetings held in 2009, in person or by telephone, as requested by the Chairman of the Compensation Committee. The Compensation Committee holds *in camera* sessions with Towers Watson at each of its meetings.

Decisions made by the Compensation Committee, however, are the responsibility of the Compensation Committee and may reflect factors and considerations other than the information and recommendations provided by Towers Watson.

Each year, the Chairman of the Compensation Committee reviews the scope of activities of Towers Watson and, if he deems appropriate, approves the corresponding budget. Any services and fees not related to executive compensation must be approved by the Chairman. In 2009, the executive compensation advisor retainer fees paid to Towers Watson totalled C\$199,142. Additional consulting services fees paid to Towers Watson regarding international executive benefits totalled C\$57,072 for 2009 and fees paid for data services (both executive and non-executive) totalled C\$22,631. Towers Watson did not provide any non-executive compensation consulting services in 2009.

Compensation Process

The Compensation Committee reviews and approves compensation for the CEO and the other NEOs, including base salaries, annual incentive awards and equity-based incentive grants. Compensation for the other NEOs is reviewed in consultation with the CEO. The Compensation Committee works with Towers Watson when determining the compensation of the NEOs, including the CEO. The Compensation Committee's decisions are then reviewed with the Board.

The Compensation Committee generally meets five times a year. At the July meeting, the Compensation Committee, based on recommendations from Towers Watson, selects the comparator group that will be used for the compensation review. At the October meeting, Towers Watson presents a competitive analysis of the total compensation for each of the NEOs, including the CEO, based on the established comparator group. Using this analysis, the Chief Legal and Administrative Officer (the "CLO"), who

has responsibility for Human Resources, together with Towers Watson and the CEO develop base salary and equity-based incentive recommendations for the NEOs, except that the CEO and CLO do not participate in the preparation of their own compensation recommendations. At the December meeting, base salary recommendations for the NEOs for the following year and the value of their equity-based incentives are approved. Previous grants of equity-based awards and the current retention value of same are reviewed and may be taken into consideration when making this decision. At the January meeting, the Compensation Committee approves the final mix of the equity-based incentives. The CLO is not present at the Compensation Committee meetings when her compensation is discussed.

The foregoing process is also followed for determining the CEO's compensation except that the CLO works with Towers Watson to develop a proposal for base salary and equity-based incentive grants. The Compensation Committee then reviews the proposal with Towers Watson in the absence of the CEO. At that time, the Compensation Committee also considers the potential value of the total compensation package for the CEO at different levels of performance and different stock prices to ensure that there is an appropriate link between pay and performance taking into consideration the range of potential total compensation.

In terms of the Corporation's annual incentive plan, targets based on a management plan approved by the Board are approved by the Compensation Committee at the beginning of the year. The Compensation Committee reviews the Corporation's performance relative to these targets and the projected payment at the October and December Compensation Committee meetings. At the January meeting of the following year, final payments under the plan, as well as the vesting percentages for any previously granted equity-based incentives that have performance vesting criteria, are calculated and approved by the Compensation Committee based on the Corporation's year-end results as approved by the Audit Committee. These amounts are then paid in February.

Comparator Companies

The Compensation Committee benchmarks salary, annual incentive and equity-based incentive awards to the Comparator Group. The revenues of the Comparator Group companies are generally in the range of half to twice the Corporation's revenues. In addition, for 2009 the Committee included in the Comparator Group three electronics manufacturing services competitors whose revenues were outside this range: Benchmark Electronics, Inc., Plexus Corp. and Flextronics International Ltd.

The Corporation's 2009 Comparator Group consisted of the following companies.

Compensation Elements for the Named Executive Officers

The compensation of the NEOs is comprised of the following elements:

- base salary;
- annual incentives (annual variable cash payments);
- equity-based incentives (restricted and performance share units and stock options);
- benefits; and
- perquisites.

Weighting of Compensation Elements

The variable portion of total compensation has the highest weighting at the most senior levels. Annual and equity-based incentive plan rewards are contingent upon organizational performance and ensure a strong alignment with shareholder interests. The weighting of compensation elements for 2009 is set out in the following table.

Table 9: Weighting of Compensation Elements

	Base Salary	Annual Incentive	Equity-Based Incentives
CEO	16.7%	16.7%	66.6%
EVPs	22.8%	18.2%	59.0%

Base Salary

The objective of base salary is to attract, reward and retain top talent. Executive positions are benchmarked against the Comparator Group, with base pay targeted at the market median of this group. Base salaries are reviewed annually and adjusted as appropriate, with consideration given to individual performance, relevant knowledge, experience and an executive's level of responsibility within the organization.

Celestica Team Incentive Plan ("CTI")

The objective of the CTI is to reward all eligible employees, including the NEOs, for the achievement of annual corporate, business unit, and individual goals and objectives. Target awards for each of the NEOs are expressed as a percentage of salary and established based on the median of the Comparator Group. Actual awards for the NEOs are based on (i) the achievement of pre-determined corporate and individual goals, and (ii) corporate performance relative to that of the EMS Competitors. Actual payouts can vary from 0% for performance below a threshold up to a maximum of 200% of the target bonus. Awards are derived according to the following formula:

For 2009, the business performance goals were comprised of the following elements:

- corporate EBIAT (50%);
- corporate revenue (25%); and
- corporate ROIC (25%).

Individual contribution is recognized through the individual component and individual performance factor ("IPF"). The IPF is based on a review of each NEO's individual performance relative to business results, teamwork and the executive's key accomplishments. This factor can adjust the executive's actual award by a factor of between 0.0x and 1.5x.

The Compensation Committee also applies a relative performance factor ("RPF") based on an evaluation of the Corporation's performance for the year relative to that of the EMS Competitors. This evaluation is based on a ROIC-based performance metric but is ultimately within the Compensation Committee's discretion. This factor can adjust the executive's actual award by a factor of between 0.5x and 1.5x.

Actual results relative to the targets, as described above, determine the amount of the annual incentive subject to the following: (i) a minimum corporate profitability threshold must be achieved to pay the business performance component, and (ii) the maximum award is two times the target.

Equity-Based Incentives

The Corporation's equity-based incentives for the NEOs consist of RSUs, performance share units ("PSUs") and stock options. The objectives of the equity-based incentive plans are to:

- align the NEO's interests with those of shareholders and incent appropriate behaviour for long-term performance;
- reward contribution to the Corporation's long-term success; and
- enable the Corporation to attract, motivate and retain the qualified and experienced employees who are critical to the Corporation's success.

At the December meeting, the Compensation Committee determines the dollar value of the equity-based grants to be awarded to the NEOs based on the comparator data analysis. The actual equity mix to be awarded is approved at the January meeting of the Compensation Committee. On the grant date, the dollar value is converted into the number of units that will be granted using the market price of the Corporation's Subordinate Voting Shares as defined by the applicable plan. RSUs and PSUs can be issued under the LTIP or the Celestica Share Unit Plan ("CSUP"). The annual grants are generally made immediately following the blackout period that ends 48 hours after the Corporation's year-end results have been released.

Target equity-based incentives are determined based on the median awards of the Comparator Group; however, consideration is given to individual performance when determining actual awards. The equity mix varies by employee level and targets a higher percentage of performance elements at the NEO levels where there is a stronger influence on results. The target mix of equity-based incentives is reviewed by the Compensation Committee each year and for 2009 the targets for the NEOs were as follows:

- 40% RSUs;
- 35% PSUs; and
- 25% stock options.

The CEO has the discretion to issue equity-based awards throughout the year to attract new hires and to retain current employees within limits set by the Compensation Committee. The number of units available throughout the year for these grants is pre-approved by the Compensation Committee at the January meeting. Subject to the Corporation's blackout periods, these grants typically take place at the beginning of each month. Any grants to NEOs must be reviewed with the Compensation Committee at the next meeting and in practice are reviewed in advance with the Chairman of the Compensation Committee.

RSUs

NEOs are granted RSUs under either the LTIP or the CSUP as part of the Corporation's annual grant. RSUs granted prior to February 2008 are released on the first day of December two years following the

grant (i.e., RSUs granted in February 2007 were released on December 1, 2009). Generally, RSUs granted in February 2008 or later are released one-third on each of the first two anniversaries of the grant date and the final third is released on the first day of December two years following the grant. Grants made throughout the year for new hires or retention purposes will be released at a rate of one-third per year. Each RSU entitles the holder to one Subordinate Voting Share of the Corporation on the release date. The payout value of the award is based on the number of RSUs being released and the share price at the time of release. The Corporation has the right to settle proceeds of release in either cash or shares.

PSUs

NEOs are granted PSUs under the CSUP. PSUs vest at the end of a three-year performance period subject to pre-determined performance criteria. The number of PSUs that actually vests will range from 0% to 200% of target depending on the Corporation's ranking in the third year of the performance period relative to that of the EMS Competitors based on an ROIC metric approved by the Compensation Committee. The vesting schedule is outlined in the following table.

Table 10: PSU Vesting Schedule

Celestica's ROIC Metric	Performance Multiplier
Equal to/greater than highest performance of the EMS Competitors	200% of target
Between the median and highest performance	Prorated between 100%-200%
Equal to median performance of the EMS Competitors	100% of target
Between the median and lowest performance	Prorated between 0%-100%
Equal to/lower than lowest performance of the EMS Competitors	0% of target

The payout value of the award is based on the number of PSUs that vests and the share price at the time of release. Each PSU entitles the holder to receive one Subordinate Voting Share of the Corporation on the release date. The Corporation has the right to settle the proceeds in either cash or shares.

Stock Options

Stock options are awarded under the LTIP. Stock options vest at a rate of 25% annually on each of the first four anniversaries of the date of grant and expire after a 10-year term. The payout value of the award is equal to the increase, if any, in share price at the time of exercise over the exercise price, which is the closing market price on the business day prior to the date of the grant.

The value of the stock options granted in respect of 2009 was determined at the December meeting of the Compensation Committee. The number of stock options granted was determined using (i) the closing price on February 1, 2010 on the NYSE of \$10.20, and (ii) a Black-Scholes factor of 0.45 determined using the same methodology as is used to determine Black-Scholes for stock option expensing purposes. The Black-Scholes factor was determined using the following variables: (i) volatility of the price of Subordinate Voting Shares, and (ii) the risk-free rate over the expected life of the options. The exercise price for the stock options is the closing price on February 1, 2010, being C\$10.77 on the TSX for Messrs. Nicoletti and Peri and Ms. DelBianco, and \$10.20 on the NYSE for Messrs. Muhlhauser and Boucher.

In determining the number of options to be granted, the Corporation keeps within a maximum level for both option "burn rate" and "overhang". "Burn rate" refers to the number of shares issued under equity plans in a given year relative to the total number of shares outstanding. In 2005, the Corporation amended the LTIP to provide that the number of options and share units awarded under the plan in any given year cannot exceed 1.2% of the total number of shares outstanding. "Overhang" refers to the total number of shares reserved for issuance under equity plans at any given time relative to the total number of shares outstanding. The Corporation has significantly reduced the number of stock option grants awarded and currently has an "overhang" of 11.3%.

Other Compensation

Benefits

NEOs participate in the Corporation's health, dental, pension, life insurance and long-term disability programs. Benefit programs are based on market median levels in the local geography.

Perquisites

NEOs are entitled to a bi-annual comprehensive medical at a private health clinic. The Corporation also pays housing expenses for Mr. Muhlhauser in Toronto, travel costs between his home in New Jersey and Toronto, the services of a tax advisor and the associated tax gross-up(s). The Corporation does not provide any other perquisites.

Celestica Employee Share Ownership Plan ("CESOP")

The CESOP enables eligible employees, including NEOs, to acquire Subordinate Voting Shares, so as to encourage continued employee interest in the Corporation's operation, growth and development. Under the CESOP, an eligible participant may elect to contribute an amount representing no more than 10% of his or her salary. The Corporation will contribute 25% of the amount that the employee contributes, up to a maximum of 1% of the employee's salary for the relevant payroll period. Contributions are used to purchase Subordinate Voting Shares of the Corporation on the open market. The CESOP was suspended on June 1, 2009.

Executive Share Ownership

The Corporation has share ownership guidelines for the CEO and the other NEOs. The guidelines provide that these individuals are to hold a multiple of their salary in Celestica Subordinate Voting Shares as shown in Table 11 below. Executives subject to ownership guidelines are expected to achieve the specified ownership within a period of five years following the later of: (i) the date of hire, or (ii) the date of promotion to a level subject to ownership guidelines. Compliance is reviewed annually as of December 31 of each year.

Table 11: Share Ownership Guidelines

Name	Ownership Guidelines	Share Ownership (Value) ⁽¹⁾	Share Ownership (Multiple of Salary)
Craig H. Muhlhauser	\$3,000,000 (3 × salary)	\$16,858,905	16.9x
Paul Nicoletti	\$1,024,000 (2 × salary)	\$5,437,827	10.6x
John Peri	\$1,008,000 (2 × salary)	\$4,919,401	9.8x
Elizabeth L. DelBianco	\$888,000 (2 × salary)	\$4,052,054	9.1x
John Boucher	\$1,000,000 (2 × salary)	\$4,419,959	8.8x

⁽¹⁾ Includes the following, as of December 31, 2009: (i) Subordinate Voting Shares beneficially owned, (ii) all unvested RSUs, (iii) PSUs that vested on February 1, 2010 at 200% of target, which, on December 31, 2009, was the Corporation's anticipated payout and was in fact the resulting payout, and (iv) all other PSUs at 100% of the target level of performance; in each case, the value of which was determined using a share price of \$9.44 being the closing price of Subordinate Voting Shares on the NYSE on December 31, 2009.

Recoupment Provisions

The Corporation is subject to the *Sarbanes-Oxley Act of 2002*. Accordingly, if the Corporation is required to restate financial results due to misconduct or material non-compliance with financial reporting requirements, the CEO and CFO would be required to reimburse the Corporation for any bonuses or incentive-based compensation they had received during the 12-month period following the restatement, as well as any profits they had realized from the sale of corporate securities during that period.

Under the terms of the stock option grants and the grants made under the LTIP and the CSUP, an NEO may be required by the Corporation to repay an amount equal to the market value of the shares at the time of release, net of taxes, if, within 12 months of the release date, the executive:

- accepts employment or accepts an engagement to supply services, directly or indirectly, to a third party, that is in competition with the Corporation or any of its subsidiaries; or
- fails to comply with, or otherwise breaches, the terms and conditions of a confidentiality agreement or non-disclosure agreement with, or confidentiality obligations to, the Corporation or any of its subsidiaries; or
- on his or her behalf or on another's behalf, directly or indirectly recruits, induces or solicits, or attempts to recruit, induce or solicit any current employee or other individual who is/was supplying services to the Corporation or any of its subsidiaries.

Executives who resign or are terminated for cause also forfeit all unvested RSUs, PSUs and stock options.

2009 Compensation Decisions

Each element of compensation is considered independently of the other elements. However, the total package is reviewed to ensure that the median total compensation objective for median levels of corporate and individual performance is achieved.

Comparator Companies and Market Positioning

Benchmarking for all elements of NEO compensation was based on the Comparator Group. Salary, target annual incentive and equity-based incentive grants for the NEOs were benchmarked at the market median of the Comparator Group.

Base Salary

The base salaries for the NEOs were reviewed taking into account individual performance and experience, level of responsibility and median competitive data.

In 2009, Mr. Boucher received a 16% increase in base salary to ensure competitiveness within the market. Messrs. Muhlhauser, Nicoletti and Peri and Ms. DelBianco did not receive increases in 2009 as their existing salaries were competitive with the market.

Celestica Team Incentive Plan

Target annual incentive awards for the CEO and other NEOs are 100% of salary and 80% of salary, respectively. Annual incentives take into account both individual and business performances on a variety of factors as set forth below. On average, in 2009 average payments to the NEOs were 54% lower than the previous year.

Business Performance

In 2009, the business performance component payout

factor was 41.5% based on the following results:

Table 12: Business Performance

Measure	Weight	Percentage Achievement Relative to Target
Operating Margin ("EBIAT") ⁽¹⁾	50%	57.5%
Corporate Revenue ⁽²⁾	25%	0.0%
Return on Invested Capital ("ROIC"), excluding intangibles ⁽³⁾	25%	51.1%
Payout Factor		41.5%

(1) EBIAT was calculated as earnings before interest, amortization of intangible assets (except amortization of computer software), total stock-based compensation expense and other charges (including restructuring costs, the write-down of long-lived assets and gains or losses on the repurchase of shares and debt) and the related income tax effects of these adjustments.

(2) Corporate revenue means the Corporation's gross revenue.

(3) ROIC, excluding intangibles, was calculated as EBIAT divided by average net invested capital where average net invested capital includes tangible assets less cash, accounts payable, accrued liabilities and income taxes payable.

In assessing operating performance and operational effectiveness, the Corporation uses certain non-GAAP measures such as adjusted gross margin, operating margin (EBIAT) and ROIC that do not have any standardized meaning prescribed by Canadian or U.S. GAAP and are not necessarily comparable to similar measures presented by other companies. Beginning with the fourth quarter of 2009, the Corporation revised the definition of its non-GAAP measures to exclude all stock-based compensation expenses (in addition to the items previously excluded) to allow for a better comparison with its major North American EMS competitors. All prior period comparables reflect the revised definition. Additional information regarding these non-GAAP measures can be found in the Management's Discussion and Analysis section of the Corporation's Annual Report on Form 20-F.

Relative Performance Factor ("RPF")

The Corporation's 2009 performance was ranked relative to that of the EMS Competitors on a ROIC performance metric. The Corporation ranked first amongst such EMS Competitors which resulted in a RPF that exceeded the 1.5x cap, resulting in the maximum RPF of 1.5x. For this comparison, the Corporation used adjusted ROIC, which is calculated as adjusted net earnings divided by average net invested capital.

Individual Performance Factor ("IPF")

Each year, the Board and the CEO agree on performance goals for the CEO. Goals for the other NEOs that will support the CEO's goals are then agreed to and established. For 2009, the CEO's goals focused on: financial performance, operational effectiveness, growing the business and leadership. Each NEO's performance is then measured on a number of factors including the formal goals established for the year. Specific measures and achievements for each NEO in 2009 were:

Chief Executive Officer

- Financial performance: ROIC grew from 14.6% in 2008 to 22.0% in 2009, but was below the target for 2009. ROIC for this measure was calculated by dividing EBIAT (as defined in footnote 1 to Table 12) by average net invested capital, including intangibles. Average net invested capital, including intangibles, included total assets less cash, accounts payable, accrued liabilities and income taxes payable.

- Operational effectiveness: The target for reduction in total spend, as a percentage of manufacturing value add, was not met.
- Growing the business: The revenue and bookings objectives were not met.
- Leadership: The target for improving the employee commitment index was exceeded.

In addition to the goals listed above, the Compensation Committee's assessment of Mr. Muhlhauser's performance in 2009 also reflected the following achievements of the Corporation:

- its best ever adjusted gross margin (7.4%);
- its best operating margin (3.5%) since 2001;
- its best ever ROIC, including intangibles (22.0%) and highest among the EMS Competitors;
- the best inventory turns (8.1x) compared with the EMS Competitors;
- second highest adjusted gross margin among the EMS Competitors; and
- second highest operating margin among the EMS Competitors.

Other NEOs

Each of the other NEOs has responsibility for the achievement of the CEO's corporate goals and objectives. The CEO's assessment of each of the other NEOs' contributions to the Corporation's results is largely subjective and based on his judgment of each of the other NEOs' contributions as a part of the senior leadership team. The achievement of individual goals is not quantitatively tied to compensation; however, the CEO's overall assessment of each NEO's achievements is a factor in determining the NEO's overall compensation.

Other factors considered in the evaluation of each NEO included the following:

- (i) Under the leadership of Mr. Nicoletti, the Corporation's share price more than doubled from December 31, 2008 to December 31, 2009, its market capitalization increased approximately 105% to \$2.2 billion at December 31, 2009, and the Corporation led the industry on a number of financial metrics, including return on invested capital. Mr. Nicoletti also oversaw the development and implementation of a roadmap that is projected to provide a reduction in finance spend year over year. In addition, the Corporation repaid the principal amount of \$489 million in debt, contributing to the reduction in annual interest expense for the year.
- (ii) Mr. Peri's global operating organization made significant contributions to the Corporation in 2009. Celestica's operations organization under Mr. Peri's leadership continued to drive productivity and cost reduction while improving customer satisfaction. The organization successfully implemented restructuring programs with minimal impact to operations and customers. Despite a decline in year to year revenue, strong management of production costs delivered improvements in operating margin and return on invested capital, while maintaining the highest inventory turns of any of the EMS Competitors.
- (iii) Ms. DelBianco achieved or exceeded goals with respect to operational effectiveness, employee engagement, growth and customer intimacy as well as activities affecting financial results. A number of important human resources and communications initiatives were implemented, including programs to improve employee engagement, which resulted in the Corporation's Employee Engagement Index exceeding the 2009 target, and the roll-out of the Corporation's first global recognition program. The organizations for which Ms. DelBianco was responsible successfully managed a number of contract, legal and securities matters and drove significant financial recoveries through effective litigation management.
- (iv) Mr. Boucher's performance was measured on several performance metrics. Under his guidance, the Corporation gained additional business from existing customers as well as new account wins, although the Corporation did not meet overall booking targets due to continued global economic uncertainty. The Corporation achieved higher material value-add service targets and a new Senior Vice President, Global Sales was hired to drive strategic growth targets. In addition, the after-market services groups were aligned with Operations in their respective regions, and significant customer, process and supplier quality improvement objectives were achieved.

Equity-Based Incentives

Equity grants to NEOs in respect of 2009 performance consisted of RSUs, PSUs and stock options. The number of RSUs and options under the LTIP and PSUs under the CSUP issued to the NEOs was based on a market price as defined under the respective Plans. Please see the discussion regarding *Compensation Discussion and Analysis — Equity-Based Incentives* on page 20 for a description of the plans. The actual mix of the grants was approved by the Compensation Committee at a meeting on January 26, 2010 and the grants were issued on February 2, 2010.

The Corporation provided the NEOs the following equity-based compensation on February 2, 2010 in respect of 2009 performance. On average, the value of equity granted to the NEOs was 20% lower than the previous year. The total number of options issued for 2009 to the NEOs was equal to 0.21% of outstanding shares, and the total number of options issued for 2009 to all employees receiving options was 0.33% of outstanding shares.

Table 13: NEO Equity Awards

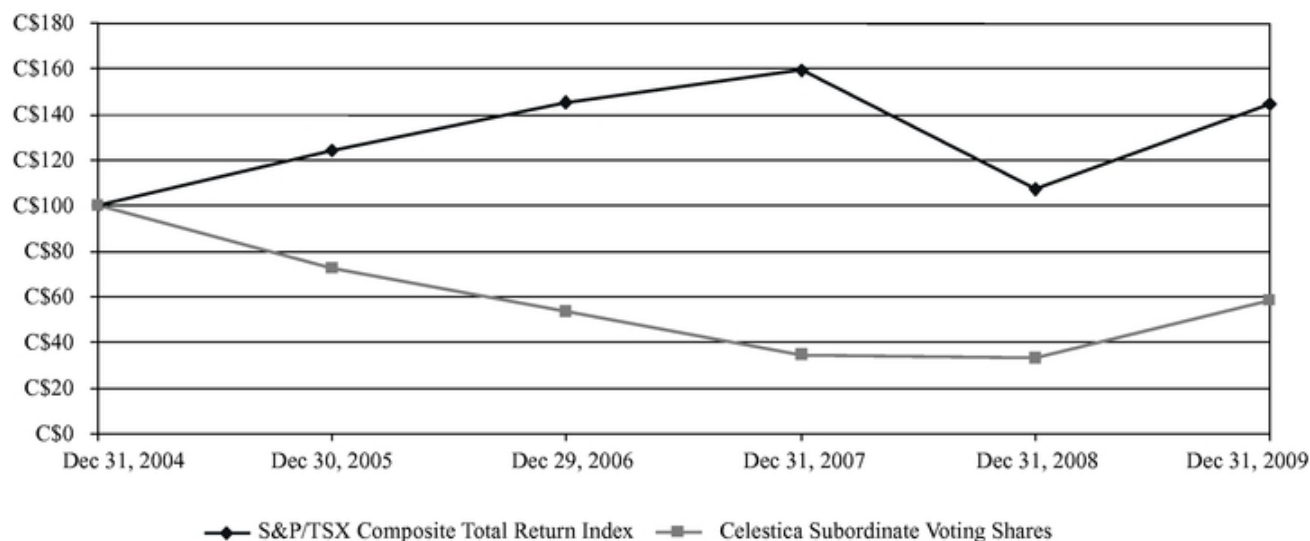

Name	RSUs (#)	PSUs (#) ⁽¹⁾	Stock Options (#)	Value of LTIP Award (000s) ⁽²⁾
Craig H. Muhlhauser	160,643	137,255	217,865	\$ 4,000
Paul Nicoletti	57,831	49,412	78,431	\$ 1,440
John Peri	48,193	41,176	65,359	\$ 1,200
Elizabeth L. DelBianco	48,193	41,176	65,359	\$ 1,200
John Boucher	48,193	41,176	65,359	\$ 1,200

(1) The number of PSUs is included at 100% of target level of performance.

(2) Based on the share price of \$10.20, being the closing price of Subordinate Voting Shares on the NYSE on February 1, 2010 and, with respect to stock options, a Black-Scholes factor of 0.45.

Performance Graph

The Subordinate Voting Shares of the Corporation have been listed and posted for trading under the symbol "CLS" on the NYSE and the TSX since June 30, 1998 (except for the period commencing on November 8, 2004 and ending on May 15, 2006 during which the symbol on the TSX was CLS.SV). The following chart compares the cumulative total shareholder return of C\$100 invested in Subordinate Voting Shares of the Corporation on December 31, 2004 (the Corporation did not declare or pay any dividends during this period) with the cumulative total shareholder return of the S&P/TSX Composite Total Return Index for the period December 31, 2004 to December 31, 2009.

As can be seen from the performance graph above, an investment in the Corporation on January 1, 2005 would have resulted in a 41% loss in value over the five-year period ended December 31, 2009 compared with a 45% increase that would have resulted from an investment in the S&P/TSX Composite Total Return Index over the same period.

The compensation of the Corporation's NEOs has fluctuated over the same period as the Corporation dealt with, amongst other things, a significant decline in demand, competitive pressures, operational issues in some regions, significant restructuring and various leadership changes. In 2006, total compensation for NEOs decreased by 57% compared to 2005, from \$11.3 million in 2005 to \$4.9 million (excluding severance costs). The reduction in total compensation for NEOs was largely attributable to reduced long-term incentive grants to certain NEOs.

After significant operational challenges were experienced in the second half of 2006, senior management changes were made across the Corporation. The new management team implemented major process improvements across all areas of the Corporation with a specific focus on improving profitability, reducing working capital and strengthening the Corporation's financial position. As management implemented these changes during 2007 and 2008, the Corporation's operating performance and financial results showed significant improvements to the point where the Corporation was the strongest financial performer amongst the EMS Competitors by the end of 2008.

During this period of improved performance, total compensation for the NEOs increased to \$15.2 million in 2007 and \$19.8 million in 2008. These increases were a result of implementing competitive compensation packages for the Corporation's leadership team, as well as maximum annual incentive payouts due to strong corporate performance in 2008.

In 2009, total compensation for the NEOs declined by 26% from \$19.8 million in 2008 to \$14.7 million in 2009, reflecting the challenges the Corporation faced in a year of continued economic uncertainty. The decrease was a result of lower annual incentive payouts and lower long-term incentive grants to reflect generally lower long-term incentive grant levels in the marketplace.

Notwithstanding the foregoing, the Corporation continues to be amongst the best performers in the electronics manufacturing services industry on key operating performance metrics. This strong financial performance also contributed to improved outlooks from the Corporation's key financial debt rating agencies. The performance graphs set out below illustrate the Corporation's significant improvements on non-GAAP measures of adjusted gross margin, operating margin (EBIAT), asset utilization and return on invested capital (see *2009 Compensation Decisions — Business Performance* on page 24 for further information on non-GAAP measures).

(1) Inventory turns is equal to 365 divided by the number of days in inventory, which is calculated as the average inventory for the quarter divided by the average daily cost of sales. The days in inventory for each quarter can be found in the Management's Discussion and Analysis section of the Corporation's Annual Report on Form 20-F.

In 2009, total compensation for NEOs was 29% higher than that paid in 2005 and was 9.3% of 2009 adjusted earnings, compared to 8.1% of adjusted earnings in 2005.

EXECUTIVE COMPENSATION

Compensation of Named Executive Officers

The following table sets forth the compensation of the NEOs for the financial year ended December 31, 2009.

In light of the significant changes to the requirements, content and format for executive compensation disclosure made by the Canadian Securities Administrators beginning with financial years ending December 31, 2008, the Corporation has disclosed executive compensation in the Summary Compensation table below for the financial years ended December 31, 2009 and December 31, 2008 only, in accordance with these requirements. Disclosure of executive compensation for the financial year ended December 31, 2007, in accordance with the then applicable requirements, is contained in the Corporation's management information circular dated March 9, 2008, which is available on www.sedar.com.

- Amounts in the column represent the value of RSUs and PSUs granted on February 2, 2010 under the LTIP and CSUP, respectively, in respect of 2009 performance. The actual number of RSUs and PSUs granted was based on a market price, as defined under each of the plans, on the grant date. Please see *Compensation and Discussion Analysis — Equity-Based Incentives* on page 20 for a description of the vesting terms of the awards and the process followed in determining the grant. The value included for PSUs is at 100% of target level performance. The number that will actually vest will vary from 0%-200% of the target grant depending on performance.
- Amounts in the column represent the value of stock options that were issued under the LTIP on February 2, 2010 in respect of 2009 performance. The actual number of options granted was based on an exercise price of \$10.20. Please see *Compensation and Discussion Analysis — Equity-Based Incentives* on page 20 for a description of the vesting terms of the awards and the process followed in determining the value of the grant.
- The accounting fair value of the equity-based awards is calculated using the market price for Subordinate Voting Shares as defined under each of the plans. Based on the market value of the shares on the grant date, the accounting fair value of the total of share-based and option-based awards to the NEOs during 2009 are as follows: Mr. Muhlhauser — \$4,117,571; Mr. Nicoletti — \$1,482,321; Messrs. Peri and Boucher and Ms. DelBianco — \$1,235,265 each.
- Amounts in this column represent incentive payments made to the NEOs through the CTI Plan. Please see *Compensation and Discussion Analysis — Celestica Team Incentive Plan* on page 19 for a description of the plan and the results achieved in respect of 2009.

- (5) Pension values for Messrs. Nicoletti and Peri and Ms. DelBianco are reported in U.S. dollars, having been converted from Canadian dollars.
- (6) Amounts in this column represent: (i) contributions to the CESOP for Messrs. Muhlhauser and Peri (see *Celestica Employee Share Ownership Plan* on page 22), and (ii) for Mr. Muhlhauser, tax gross-up payments of \$54,806, housing expenses of \$33,643 while in Canada and travel expenses between Toronto and New Jersey of \$34,508.
- (7) Mr. Muhlhauser did not receive an increase in base salary in 2009; the difference in base salary from 2008 to 2009 reported in the Summary Compensation table reflects the increase he received on April 1, 2008 from \$750,000 to \$1,000,000, which is his current salary.
- (8) In February, 2009, Celestica implemented a policy to pay all Executive Vice-Presidents in U.S. dollars. Base salaries paid to Messrs. Nicoletti and Peri and Ms. DelBianco were converted and denominated in U.S. dollars (having been previously denominated in Canadian dollars). These individuals did not receive increases in 2009; differences in base salaries from 2008 to 2009 reflect exchange rate fluctuations prior to implementation.

The following table provides details of each option grant outstanding and the aggregate number of unvested equity-based awards for each of the NEOs as of December 31, 2009.

- * Denotes Performance Contingent Options ("PCOs") which are not fully vested and are included at 200% of target level performance which, on December 31, 2009 was the Corporation's anticipated vesting percentage, and was in fact the vesting percentage. PCOs have not been issued since February 2007 and the Corporation does not contemplate issuing further PCOs.
- (1) Includes options and share-based awards granted on February 2, 2010 in respect of 2009 performance. Please see *Compensation Discussion and Analysis — Equity-Based Incentives* on page 20 for a discussion of the equity grants.
- (2) The value of unexercised in-the-money options for Messrs. Muhlhauser and Boucher was determined using a share price of \$9.44, which was the closing price of Subordinate Voting Shares on the NYSE on December 31, 2009. For Messrs. Nicoletti and Peri and Ms. DelBianco, a share price of C\$9.96 was used, which was the closing price of the Subordinate Voting Shares on the TSX on December 31, 2009, converted to U.S. dollars at the average exchange rate for 2009 of \$1.00 equals C\$1.1412.
- (3) Market payout values at minimum vesting include the value of RSUs only as the minimum payout value of PSUs would be 0% of target. Market payout values at target vesting is determined using 100% of PSUs vesting and market payout values at maximum vesting is determined using 200% of PSUs vesting. Market payout values are determined using a share price of \$9.44, which was the closing price of the Subordinate Voting Shares on the NYSE on December 31, 2009, except for the share-based awards granted on February 2, 2010 in respect of 2009 performance for which the market payout values are determined using a share price of \$10.20, which was the closing price of the Subordinate Voting Shares on the NYSE on February 1, 2010, the day before the grants.

The following table provides details of the value of option-based and share-based awards that vested during 2009 and the value of annual incentive awards paid for 2009 performance for each NEO.

Table 16: Incentive Plan Awards — Value Vested or Earned in 2009

Elizabeth L. DelBianco	—	\$570,545	\$367,395
John Boucher	—	\$457,728	\$261,983

- (1) Amounts in this column reflect the value of options that were in-the-money on the vesting date. Options for Mr. Nicoletti vested on July 31, 2009 with an exercise price of C\$6.27. The price for the Corporation's Subordinate Voting Shares on the TSX was C\$8.60 on that date. These values were converted to U.S. dollars at the average exchange rate of 2009 of \$1.00 equals C\$1.1412. Where no value is shown, options that vested during 2009 had an exercise price above market value on the vesting date.
- (2) Share-based awards were released as follows: (i) RSUs were released to all NEOs on February 5, 2009 at a price of \$4.04 on the NYSE for Messrs. Boucher and Muhlhauser and C\$4.93 on the TSX for Messrs. Nicoletti and Peri and Ms. DelBianco, (ii) RSUs were released on December 1, 2009 to all NEOs except Mr. Peri at a price of \$8.19 on the NYSE for Messrs. Boucher and Muhlhauser and C\$5.37 on the TSX for Messrs. Nicoletti and Peri and Ms. DelBianco. All of the proceeding C\$ values were converted to U.S. dollars at the average exchange rate for 2009 of \$1.00 equals C\$1.1412.
- (3) Includes payments under the CTI Plan made in February 2010 in respect of 2009 performance. Please see *Compensation Decisions — Celestica Team Incentive Plan* on page 19. These are the same amounts as disclosed in Table 14 under the column "Non-Equity Incentive Plan Compensation — Annual Incentive Plans".

Pension Plans

The following table provides details of the amount of the Celestica contributions to the pension plans and the accumulated value as of December 31, 2009 for each NEO.

John Boucher	\$207,126	\$11,735	\$107,168	\$326,029

(1) The difference between the Accumulated Value at Start of Year and the Accumulated Value at End of Year reported in the 2008 proxy for Messrs. Nicoletti and Peri and Ms. DelBianco is attributable to different exchange rates used in the 2008 and 2009 proxies. The exchange rate used in the 2008 proxy was \$1.00 = C\$1.0660.

Messrs. Muhlhauser and Boucher participate in a defined contribution pension plan that qualifies as a deferred salary arrangement under section 401(k) of the Internal Revenue Code (United States) (the "U.S. Plan"). Under the U.S. Plan, participating employees may defer 100% of their pre-tax earnings subject to any statutory limitations. The Corporation may make contributions for the benefit of eligible employees. The U.S. Plan allows employees to choose how their account balances are invested on their behalf within a range of investment options provided by third party fund managers. The Corporation contributes: (i) 3% of eligible compensation for Messrs. Muhlhauser and Boucher, and (ii) up to an additional 3% of eligible compensation by matching 50% of the first 6% contributed by each of them. The maximum contribution of the Corporation based on the Internal Revenue Code rules and the plan formula for 2009 is \$14,700. There are no supplemental plans for U.S. employees.

Messrs. Nicoletti and Peri and Ms. DelBianco participate in the defined contribution portion of the Canadian Pension Plan. The defined contribution portion of the Canadian Pension Plan allows employees to choose how the Corporation's contributions are invested on their behalf within a range of investment options provided by third party fund managers. The Corporation's contributions to this plan on behalf of an NEO range from 3.6% to 6.75% of salary and paid annual incentive based on the number of years of service. Retirement benefits depend upon the performance of the investment options chosen. Messrs. Nicoletti and Peri and Ms. DelBianco also participate in an unregistered supplementary pension plan (the "Supplementary Plan") that is also a defined contribution plan that is designed to provide benefits equal to the difference between the benefits determined in accordance with the formula set out in the Canadian Pension Plan and Canada Revenue Agency maximum pension benefits. Notional accounts are maintained for each participant in the Supplementary Plan. Participants are entitled to select from among the investment options available in the registered plan for the purpose of determining the return on their notional accounts.

The 2009 percentage contribution rates are outlined below in Table 18.

to the Canadian Pension Plan**

Name	Contribution %
Paul Nicoletti	6.25%
John Peri	6.39%
Elizabeth L. DelBianco	5.40%

Termination of Employment and Change in Control Arrangements with Named Executive Officers

The Corporation has entered into employment agreements with certain of its NEOs in order to provide certainty to the Corporation and such NEOs with respect to such issues as obligations of confidentiality, non-solicitation and non-competition after termination of employment, the amount of severance to be paid in the event of termination of the NEO's employment and to provide a retention incentive in the event of a change in control scenario.

Messrs. Muhlhauser and Nicoletti and Ms. DelBianco

The employment agreements of the above-noted individuals provide that each of them is entitled to certain severance benefits if, during a change in control period at the Corporation, they are terminated without cause or resign for good reason as defined in their agreements (which provision is commonly referred to as a "double trigger" provision). A change in control period is defined in their agreements as the period (a) commencing on the date the Corporation enters into a binding agreement for a change in control, an intention is announced by the Corporation to effect a change in control or the board adopts a resolution that a change in control has occurred and (b) ending three years after the completion of the change in control or, if a change in control is not completed, one year following the commencement of the period. The amount of the severance payment for Mr. Muhlhauser is equal to three times his annual base salary and the simple average of his annual incentive for the three prior completed financial years of the Corporation, together with a portion of his expected annual incentive for the year based on expected financial results, prorated to the date of termination. The amount of the severance payment for each of Mr. Nicoletti and Ms. DelBianco is equal to three times their annual base salary and target annual incentive, together with a portion of their target annual incentive for the year prorated to the date of termination. The agreements provide for a cash settlement to cover benefits that would otherwise be payable during the severance period, and the continuation of contributions to their pension and retirement plans until the third anniversary following their termination. In addition, in these circumstances, (a) the options granted to each of them vest immediately, (b) the unvested PCOs and PSUs granted to each of them vest immediately at target level of performance, unless the terms of a PCO or PSU grant provide otherwise, or on such other more favorable terms as the Board in its discretion may provide, and (c) the RSUs granted to each of them shall vest immediately.

Outside a change in control period, upon termination without cause or resignation for good reason as defined in their agreements, the amount of the severance payment for Mr. Muhlhauser is equal to two times his annual base salary and the simple average of his annual incentive for the two prior completed financial years of the Corporation, together with a portion of his expected annual incentive for the year based on expected financial results, prorated to the date of termination. The amount of the severance payment for each of Mr. Nicoletti and Ms. DelBianco is equal to two times their annual base salary and target annual incentive, together with a portion of their target annual incentive for the year prorated to the date of termination. There is no accelerated vesting of options, PCOs or PSUs and all unvested options, PCOs and PSUs are cancelled. However, options that would have otherwise vested and become exercisable during the 12 week period following the date of termination shall vest and become exercisable in accordance with the terms of the plan. All RSUs shall vest immediately on a pro rata basis based on the number of full years of employment completed between the date of grant and the termination of employment. In addition, the Corporation's obligations provide for a cash settlement to cover benefits and contributions to or continuation of their pension and retirement plans for a two-year period following termination. In the event of retirement, the number of RSUs and PSUs vests on a pro rata basis based on the number of days between the date of grant and the date of retirement.

The foregoing entitlements are conferred on Messrs. Muhlhauser and Nicoletti and Ms. DelBianco in part upon their fulfillment of certain confidentiality, non-solicitation and non-competition obligations for a period of three years following termination of employment in the case of Mr. Muhlhauser and a period of two years following termination of employment in the case of Mr. Nicoletti and Ms. DelBianco. In the event of a breach of such obligations, the Corporation is entitled to seek appropriate legal, equitable and other remedies, including injunctive relief.

The following tables summarize the payments to which Messrs. Muhlhauser and Nicoletti and Ms. DelBianco would have been entitled upon a change in control, or if their employment had been terminated on December 31, 2009 as a result of a change in control, retirement or termination without cause.

Table 19: Mr. Muhlhauser's Benefits

	Cash Portion⁽¹⁾	Value of Exercisable/ Vested LTIP	Other Benefits⁽²⁾	Total
Change in Control — No Termination	—	\$19,103,435	—	\$19,103,435
Change in Control — Termination	\$5,763,950	\$19,103,435	\$75,613	\$24,942,998
Retirement	—	\$11,873,433	—	\$11,873,433
Termination without Cause	\$4,763,950	\$2,131,767	\$50,409	\$6,946,126

(1) Cash portion includes actual CTI payment for 2009.

Messrs. Peri and Boucher

The terms of employment with the Corporation for Messrs. Peri and Boucher are governed by the Corporation's Executive Employment Guidelines (the "Executive Guidelines"). Upon termination without cause within two years following a change in control of the Corporation (a "double-trigger" provision), Messrs. Peri and Boucher are entitled to a severance payment equal to two times annual base salary and the lower of target or actual annual incentive for the previous year, subject to adjustment for factors including length of service, together with a portion of his annual incentive for the year prorated

to the date of termination. In addition, upon a change in control (a) all unvested options granted to Messrs. Peri and Boucher vest on the date of change in control, (b) all unvested RSUs granted to them vest on the date of change in control, and (c) all unvested PSUs granted to them vest on the date of change in control at target level of performance.

Under the Executive Guidelines, the pension and group benefits of Messrs. Peri and Boucher discontinue on the date of termination.

Outside of the two-year period following a change in control, upon termination without cause, Messrs. Peri and Boucher are entitled to payments and benefits that are substantially similar to those provided following a termination within two years of a change in control, except that (a) vested options may be exercised for a period of 30 days and unvested options are forfeited on the termination date, (b) in respect of RSU grants with a 100% vesting at the end of the term, RSUs vest on a pro rata basis based on the full number of years of employment completed between the date of grant and the date of termination, and in respect of RSU grants with one-third vesting over each of three years, unvested RSUs will not be released, and (c) PSUs are forfeited on the termination date. In the event of retirement, (a) options continue to vest and are exercisable until the earlier of three years following retirement and the original expiry date, (b) in respect of RSU grants with a 100% vesting at the end of the term, RSUs vest on a pro rata basis based on the number of days between the date of grant and the date of retirement, and in respect of RSUs grants with one-third vesting over each of three years, unvested RSUs vest on a pro rata basis based on the number of days between the date of the most recent release and the date of retirement, and (c) PSUs vest based on actual performance and are prorated for the number of days between the date of grant and the date of retirement.

The foregoing entitlements are conferred on Messrs. Peri and Boucher in part upon their fulfillment of certain confidentiality, non-solicitation and non-competition obligations for a period of two years following termination of their employment.

The following tables summarize the payments to which Messrs. Peri and Boucher would have been entitled upon a change in control, or if their employment had been terminated on December 31, 2009 as a result of a change in control, retirement or termination without cause.

(1) Excluding securities that may be issued upon exercise of outstanding options, warrants and rights.

(2) The total number of securities to be issued under all equity compensation plans approved by shareholders represent 4.57% of the total number of outstanding shares (MSL — 0.09%; LTIP (Options) — 4.46%; and LTIP (RSUs) — 0.03%).

The LTIP is the only securities-based compensation plan providing for the issuance of securities from treasury under which grants have been made and continue to be made by the Corporation since the company was listed on the TSX. Under the LTIP, the Board of Directors may in its discretion from time to time grant stock options, performance shares, performance share units and stock appreciation rights ("SARs") to employees and consultants of the Corporation and affiliated entities.

Up to 29,000,000 Subordinate Voting Shares may be issued from treasury pursuant to the LTIP. The number of Subordinate Voting Shares that may be issued from treasury under the LTIP to directors is limited to 2,000,000; however, the Corporation has decided that no more option grants under the LTIP will be made to directors. Under the LTIP, as of February 22, 2010, 2,930,185 Subordinate Voting Shares have been issued from treasury and 10,517,047 Subordinate Voting Shares are issuable under outstanding options. Also as of February 22, 2010, 26,069,815 Subordinate Voting Shares are reserved for issuance from treasury under the LTIP. In addition, the Corporation may satisfy obligations under the LTIP by acquiring Subordinate Voting Shares in the market.

The LTIP limits the number of Subordinate Voting Shares that may be (a) reserved for issuance to insiders (as defined under TSX rules for this purpose), and (b) issued within a one-year period to insiders pursuant to options or rights granted pursuant to the LTIP, together with Subordinate Voting Shares reserved for issuance under any other employee-related plan of the Corporation or options for services granted by the Corporation, in each case to 10% of the aggregate issued and outstanding Subordinate Voting Shares and Multiple Voting Shares of the Corporation. The LTIP also limits the number of Subordinate Voting Shares which may be reserved for issuance to any one participant pursuant to options or SARs granted pursuant to the LTIP, together with Subordinate Voting Shares reserved for issuance under any other employee-related plan of the Corporation or options for services granted by the Corporation, to 5% of the aggregate issued and outstanding Subordinate Voting Shares and Multiple Voting Shares of the Corporation. The number of grants awarded under the LTIP in any given year

cannot exceed 1.2% of the total number of Subordinate Voting Shares.

Options issued under the LTIP may be exercised during a period determined in the LTIP, which may not exceed ten years. The LTIP also provides that, unless otherwise determined by the Board of Directors, options will terminate within specified time periods following the termination of employment of an eligible participant with the Corporation or affiliated entities. The exercise price for options issued under the LTIP is the closing price for Celestica Subordinate Voting Shares on the day prior to the grant. The TSX closing price is used for Canadian employees and the NYSE closing price is used for all other employees. The exercise of options may be subject to vesting conditions, including specific time schedules for vesting and performance-based conditions such as share price and financial results. The grant of options to, or exercise of options by, an eligible participant may also be subject to certain share ownership requirements. The LTIP also provides that the Corporation may, at its discretion, make loans or provide guarantees for loans to assist participants to purchase Subordinate Voting Shares upon the exercise of options or to assist participants to pay any income tax exigible upon exercise of options provided that in no event shall any such loan be outstanding for more than 10 years from the date of the option grant. The Corporation has no such loans or guarantees outstanding.

Under the LTIP, eligible participants may be granted SARs, a right to receive a cash amount equal to the difference between the market price of the Subordinate Voting Shares at the time of the grant and the market price of such shares at the time of exercise of the SAR. The market price used for this purpose is the weighted average price for Celestica Subordinate Voting Shares on the TSX during the period five trading days preceding the exercise date. Such amounts may also be payable by the issuance of Subordinate Voting Shares. The exercise of SARs may also be subject to conditions similar to those which may be imposed on the exercise of stock options.

Under the LTIP, eligible participants may be allocated performance units in the form of PSUs or RSUs, which represent the right to receive an equivalent number of Subordinate Voting Shares at a specified release date. The issuance of such shares may be subject to vesting requirements similar to those described above with respect to the exercisability of options and SARs, including such time or performance-based conditions as may be determined by the Board of Directors in its discretion. The number of Subordinate Voting Shares which may be issued from the treasury of the Corporation under the performance unit program is limited to 2,000,000 and the number of Subordinate Voting Shares which may be issued to any one person pursuant to the performance unit program shall not exceed 1% of the aggregate issued and outstanding Subordinate Voting Shares and Multiple Voting Shares of the Corporation.

The interests of any participant under the LTIP or in any option, SAR or performance unit are not transferable, subject to limited exceptions.

The following types of amendments to the LTIP or the entitlements granted under it require the approval of the holders of the voting securities by a majority of votes cast by shareholders present or represented by proxy at a meeting:

- (a) increasing the maximum number of Subordinate Voting Shares that may be issued under the LTIP;
- (b) reducing the exercise price of an outstanding option (including cancelling and, in conjunction therewith, regrating an option at a reduced exercise price);
- (c) extending the term of any outstanding option of stock appreciation right;
- (d) expanding the rights of participants to assign or transfer an option, stock appreciation right or performance unit beyond that currently contemplated by the LTIP;
- (e) amending the LTIP to provide for other types of security-based compensation through equity issuance;
- (f) permitting an option to have a term of more than 10 years from the grant date;
- (g) increasing or deleting the percentage limit on Subordinate Voting Shares issuable or issued to insiders under the LTIP;
- (h) increasing or deleting the percentage limit on Subordinate Voting Shares reserved for issuance to any one person under the LTIP (being 5% of the Corporation's total issued and outstanding Subordinate Voting Shares and Multiple Voting Shares);

- (i) adding to the categories of participants who may be eligible to participate in the LTIP; and
- (j) amending the amendment provision,

subject to the application of the anti-dilution or re-organization provisions of the LTIP.

The Board may approve amendments to the LTIP or the entitlements granted under it without shareholder approval, other than those specified above as requiring approval of the shareholders, including, without limitation:

- (a) housekeeping changes (such as a change to correct an inconsistency or omission or a change to update an administrative provision);
- (b) a change to the termination provisions for the LTIP or for an option as long as the change does not permit the Corporation to grant an option with a termination date of more than 10 years from the date of grant or extend an outstanding option's termination date beyond such date; and
- (c) a change deemed necessary or desirable to comply with applicable law or regulatory requirements.

The CSUP provides for the issuance of RSUs and PSUs in the same manner as provided in the LTIP, except that the Corporation may not issue shares from treasury to satisfy its obligations under the CSUP and there is no limit on the Subordinate Voting Shares that may be issued under the terms of the CSUP. The issuance of RSUs and PSUs may be subject to vesting requirements, including any time-based conditions established by the Board of Directors at its discretion. The vesting of PSUs also requires the achievement of specified performance-based conditions as determined by the Compensation Committee and approved by the Board of Directors.

INDEBTEDNESS OF DIRECTORS AND OFFICERS

As at February 22, 2010, no current or former executive officers or members of the Board of the Corporation or its subsidiaries and none of their respective associates were indebted to the Corporation or any of its subsidiaries (or had indebtedness that was the subject of a guarantee, support agreement, letter of credit or similar arrangement or understanding provided by the Corporation or any of its subsidiaries) in connection with the purchase of Subordinate Voting Shares or in connection with any other transaction.

DIRECTORS' AND OFFICERS' INDEMNIFICATION AND LIABILITY INSURANCE

The Corporation and certain of its subsidiaries have entered into indemnification agreements with certain of the directors and officers of the Corporation and its subsidiaries. These agreements generally provide that the Corporation or the subsidiary of the Corporation which is a party to the agreement, as applicable, will indemnify the director or officer in question (including his or her heirs and legal representatives) against all costs, charges and expenses incurred by him or her in respect of any civil, criminal, administrative, investigative or other proceeding in which the individual is involved by reason of being or having been a director or officer of the Corporation or a subsidiary thereof, provided that he or she has acted honestly and in good faith with a view to the best interests of the Corporation or a subsidiary thereof.

In 2009, the Corporation changed to a stand-alone directors' and officers' insurance policy from the previous umbrella policy shared by all Onex group companies. This stand-alone policy, which was renewed on December 1, 2009 for a twelve-month period, provides for aggregate coverage of \$80 million. The policy protects directors and officers against liability incurred by them while acting in their capacities as directors and officers of the Corporation and its subsidiaries. Included in the \$80 million of aggregate coverage is coverage dedicated solely to individual directors and officers. The Corporation's cost for this policy is approximately \$1.5 million annually. Limits available under the policy are in excess of a self-retention or deductible of \$1 million for each loss or claim depending on the type of claim.

MANAGEMENT SERVICES AGREEMENT

On January 1, 2009, the Corporation and Onex entered into a Services Agreement for the services of Mr. Schwartz as a director of the Corporation, subject to his election at the Meeting. The term of the Services Agreement is for one year and shall automatically renew for successive one-year terms unless either the Corporation or Onex provide notice of intent not to renew. Onex receives compensation under the Services Agreement in an amount equal to \$200,000 per year, payable in equal quarterly instalments in arrears in DSUs. The number of DSUs is determined using the closing price of the Subordinate Voting Shares on the NYSE on the last day of the fiscal quarter in respect of which the instalment is to be paid.

STATEMENT OF CORPORATE GOVERNANCE PRACTICES

National Instrument 58-101 — *Disclosure of Corporate Governance Practices* (the "Instrument", together with National Policy 58-201 — *Corporate Governance Guidelines*, the "CSA Governance Requirements") of the Canadian Securities Regulators (the "CSA") requires the Corporation to disclose, on an annual basis, its corporate governance practices with reference to a specific form set out in the Instrument. The TSX requires the Corporation to comply with the Instrument. The disclosure set out in tabular form in Schedule A reflects the CSA Governance Requirements.

At the Corporation, we remain committed to the highest standards of corporate governance in all aspects of our decision-making processes. The Corporation's Board of Directors has put into place systems and procedures that support independent, thoughtful and informed decisions. As governance regulation has evolved over the past several years, the Corporation has adapted its practices to reflect changing standards. Today, the Corporation meets and often exceeds the corporate governance-related legal requirements in Canada and the United States and also follows the best practices recommended by securities regulators. The Corporation is listed on the NYSE and, although we are not required to comply with all of the NYSE corporate governance requirements to which we would be subject if we were a U.S. corporation, our governance practices differ significantly in only one respect from those required of U.S. domestic issuers. Unlike under NYSE rules, there is no requirement in Canada for shareholder approval of compensation arrangements involving share purchases in the open market. The Corporation complies with the TSX rules. The TSX rules require shareholder approval of new share compensation arrangements involving issuances of shares and that shareholders approve the amendments to such arrangements in accordance with the amendment provisions in the arrangements.

OTHER MATTERS

Management knows of no matters to come before the Meeting other than the matters referred to in the Notice of Meeting. However, if any other matters which are not now known to management should properly come before the Meeting, the proxy will be voted upon such matters in accordance with the best judgment of the person voting the proxy.

Administrative Officer and Corporate Secretary

SCHEDULE A

STATEMENT OF CORPORATE GOVERNANCE PRACTICES

The Corporation's corporate governance disclosure required by National Instrument 58-101 — *Disclosure of Corporate Governance Practices* is set out below.

Board of Directors

Director Independence

A majority of our directors are independent. Independence has been determined in the case of each director on the basis of whether that director has a direct or indirect material relationship (defined in accordance with National Instrument 58-101 as a relationship which could, in the view of the Corporation's board of directors, be reasonably expected to interfere with the exercise of the director's independent judgment) (other than as a director of the Corporation) with the Corporation, any of the Corporation's subsidiaries or with Onex Corporation ("Onex") (which holds approximately 69% of the voting rights attaching to shares of the Corporation).

Mr. Etherington is a director of Onex, but he is not an employee or executive officer of Onex. Furthermore, in the view of the Board of Directors of the Corporation, Mr. Etherington does not have any material relationships that would reasonably be expected to interfere with the exercise of his independent judgment in relation to the Corporation. Accordingly, under the rules of the Canadian Securities Administrators, he is considered independent.

The following chart details the Board's determination with respect to the independence status of each director:

Meetings of Independent Directors

The independent directors meet separately as part of every Board meeting, unless the meeting is a telephone meeting outside the regular Board schedule. Mr. Crandall, the Chairman of the Board, presides at all such meetings. From the beginning of 2009 to February 22, 2010, the independent directors met eight times in these *in camera* sessions.

Independent Chairman

Mr. Crandall is the Chairman of the Board and is an independent director. In this capacity, Mr. Crandall is responsible for the effective functioning of the Board. As part of his duties, he establishes procedures to govern the Board's work and ensure the Board's full discharge of its duties. A complete position description for the Chairman is posted in the "Who We Are"/"Corporate Governance" section of our website at www.celestica.com. Celestica shareholders and other interested parties may communicate directly to the Chairman any concerns that they may have regarding the Corporation. See the contact information under *How Can I Contact the Independent Directors and Non-Executive Chairman?* on page 3 of this Circular.

Attendance Record

For a complete record of our directors' attendance at Board meetings and at meetings of those Committees of which they are members, see the *Attendance of Directors at Board and Committee Meetings* on page 15 of this Circular.

Board Mandate

The mandate of the Board of Directors is attached to this Circular as Schedule B and is posted on our website at www.celestica.com. See "Who We Are"/"Corporate Governance".

Under the mandate, the Board of Directors has explicitly assumed stewardship responsibility for the Corporation.

Position Descriptions

Position Descriptions of the Chairman of the Board and Committee Chairs

The Board has approved position descriptions for the Chairman of the Board and the Chairman of each Committee of the Board.

These position descriptions are posted on our website at www.celestica.com. See "Who We Are"/ "Corporate Governance". The Chairman of the Board and of each Committee is available to respond to questions from shareholders at the Corporation's annual meeting.

Position Description of the Chief Executive Officer

The Board has developed a written position description for the CEO. The CEO has full responsibility for the day-to-day operation of the Corporation's business in accordance with the Corporation's strategic plan. The CEO must develop and implement processes that will ensure the achievement of the Corporation's financial and operating goals. The complete position description of the CEO is posted on our website at www.celestica.com. See "Who We Are"/"Corporate Governance".

Orientation and Continuing Education

Orientation for New Directors

The Corporation's orientation program helps new directors contribute effectively to the work of the Board as soon as possible. As part of this program, new directors receive written materials on the Corporation's structure, organization, current priorities and issues that have been considered by the Board and each of its Committees. New directors also attend meetings with the Chairman and key executives and receive presentations from senior management on all aspects of the Corporation's business. Through this orientation program, new directors have the opportunity to become familiar with the operations and culture of the organization and the role played by the Board in that context.

Ongoing Director Development and Education

Through the Board's continuing education program, directors are provided with information about the Corporation's business and industry. Specifically, directors are provided with:

- detailed information packages in advance of each board and committee meeting;
- regular updates between meetings of the board with respect to issues that affect the business of the Corporation; and
- full access to the senior management and employees of the Corporation.

Directors also participate in setting the agendas for board and committee meetings and in annual strategic planning sessions.

The Board's continuing education program also includes management presentations, analyst reports and regular business updates from the CEO. In addition, the Corporation provides each director with a membership in the National Association of Corporate Directors to keep them up to date on the role of an effective Board member and help them stay in touch with issues of common interest to all directors.

During 2009, directors attended educational presentations and were provided with educational materials related to the following topics:

- executive compensation trends;
- CSAs-proposed compensation disclosure requirements;
- developments in corporate governance;
- International Financial Reporting Standards implementation;
- financial disclosure practices and recommendations; and
- accounting issues with respect to the current environment.

Ethical Business Conduct

Code of Business Conduct and Ethics and Promotion of Ethical Conduct

The Corporation's Business Conduct Governance Policy (the "Policy") applies to all the Corporation's directors, officers and employees. In addition, the Corporation's CEO, senior finance officers and all personnel in the finance area are subject to the Corporation's Finance Code of Professional Business Conduct. Both of these codes may be obtained on the Corporation's website at www.celestica.com. See "Who We Are"/"Corporate Governance".

The Board reviews the Policy and the process for administering the Policy on an annual basis. Management provides regular reports to the Board with respect to compliance with the Policy.

All employees above a designated level are required to certify compliance with the Policy annually. In 2007 we also began an on-line training program for the Policy. The Policy requires ethical behavior from employees and encourages employees to report breaches of the Policy to their manager. From the time that the Corporation was established as a separate public company, it has provided a mechanism whereby employees could report unethical behavior on an anonymous basis. In 2004, the Corporation launched the Celestica Ethics Hotline which provides another method for employees in every jurisdiction in the world to report unethical conduct, on an anonymous basis if they so choose.

As part of the written mandate of the Board of Directors, the Board has adopted as a minimum standard that directors must demonstrate integrity and high ethical standards. The mandate also requires the Board, to the extent feasible, to satisfy itself as to the integrity of the Corporation's CEO and other executive officers and that the CEO and other executive officers create a culture of integrity throughout the organization.

The Corporation's Corporate Values, which were created at the company's inception, underpin the Corporation's commitment to strong business ethics. A copy of the Corporation's Corporate Values may be obtained on the Corporation's website at www.celestica.com. See About the Corporation/Corporate Governance.

Material Interests in Transactions

The Corporation has no contracts or other arrangements in place in which any of its directors or officers has a material interest and does not anticipate entering into any such arrangement. If any such arrangement were to arise, it would first be considered by the Audit Committee and then would be subject to the approval of the Board of Directors (in each case, without the participation of the director who would have the material interest in question).

Audit Committee

The Board has a fully independent Audit Committee (currently comprised of Robert Crandall (Chairman), William Etherington, Laurette Koellner, Eamon Ryan and Don Tapscott). Shareholders may obtain further information regarding the Corporation's Audit Committee in Part I, Item 6C on page 89 and Part II, Item 16A on page 105 of the Corporation's 2009 Annual Information Form and may review the Audit Committee's mandate on our website at www.celestica.com. See "Who We Are"/"Corporate Governance".

Members of the Audit Committee may not serve on more than three audit committees of public companies, including that of the Corporation. The Committee and its Chairman are appointed annually by the Board. As part of each meeting, Committee members meet without any member of management present. The Committee has the authority to retain and compensate any consultants and advisors it considers necessary to fulfill its mandate.

Nomination of Directors

Director Nomination Process

Recognizing that new directors may be required from time to time, the Nominating and Corporate Governance Committee maintains a matrix of the competencies and skills each existing director possesses for the purpose of identifying any gaps and determining the skill set of a potential director that it believes would best suit the Corporation. This has helped the Committee develop profiles of individuals whose background and skills would complement those of the existing directors. In 2009, an executive search firm was retained to help identify potential directors with the desired skills and background.

Independence and Powers of the Nominating and Corporate Governance Committee

The Governance Committee is a fully independent committee of the Board and is currently comprised of Robert Crandall (Chairman), William Etherington, Laurette Koellner, Eamon Ryan, Don Tapscott and Richard Love, who is not standing for re-election.

The mandate of the Committee is posted on our website at www.celestica.com. See "Who We Are"/"Corporate Governance".

The Committee is responsible for developing and recommending governance guidelines for the Corporation (and to recommend changes to those guidelines), identifying individuals qualified to become members of the Board, and recommending director nominees to be put before the shareholders at each annual meeting.

Election of Directors

On October 26, 2006, the Board adopted a policy that requires in an uncontested election of directors that shareholders will be able to vote in favour of, or to withhold from voting, separately for each director nominee. If, with respect to any particular nominee, other than the controlling shareholder or a representative of the controlling shareholder, the number of shares withheld from voting by shareholders other than the controlling shareholder and its associates exceeds the number of shares that are voted in favour of the nominee, then the Board will determine, and in so doing will give due weight to the rights of the controlling shareholder, whether to require the nominee to resign from the Board. If the Board determines that such a nominee should resign, the nominee will resign and the Board will accept the resignation. It is expected that such a determination by the Board will be made, and announced, within 90 days after the applicable shareholders' meeting. Subject to any corporate law restrictions, the Board may leave any resultant vacancy unfilled until the next annual shareholders' meeting or it may fill the vacancy through the appointment of a new director whom the Board considers would merit the confidence of the shareholders or it may call a special meeting of shareholders at which there will be presented a management slate to fill the vacant position or positions.

Compensation

Determination of Directors' and Officers' Compensation

In setting the compensation of the Corporation's officers, the Compensation Committee targets a median level of compensation for each component of the officer's compensation package (base salary, annual incentives, mid-term and long-term incentives and benefits) compared to a group of companies in closely-related industries. For more detail on the philosophy and approach adopted by the Compensation Committee, see the *Compensation Discussion and Analysis* on page 16 of this Circular.

Director compensation is set by the Board on the recommendation of the Compensation Committee and in accordance with director compensation guidelines established by the Governance Committee. The Compensation Committee retains an independent compensation consultant to provide it with market advice. The Board feels that the remuneration paid to directors is appropriate in light of the time commitment and risks and responsibilities involved.

Independence and Powers of the Compensation Committee

The Board has a fully independent Compensation Committee (currently comprised of William Etherington (Chairman), Robert Crandall, Laurette Koellner, Eamon Ryan and Don Tapscott). The Committee and its Chairman are appointed annually by the Board. As part of each meeting, Committee members meet without any member of management present. The Committee has the authority to retain and compensate any consultants and advisors it considers necessary. The Committee's responsibilities include approving the compensation of the CEO, and approving non-CEO compensation, incentive-based plans and equity-based plans.

The full mandate of the Compensation Committee is posted on our website at www.celestica.com. See "Who We Are"/"Corporate Governance".

External Advisors Regarding Director and Executive Compensation

The Committee has retained Towers Watson as its independent compensation consultant to assist in the discharge of its mandate. For a description of Towers Watson's role and mandate, please see *Compensation Discussion and Analysis — Independent Advice* on page 17.

Other Board Committees

Executive Committee

The Board currently has a fully independent Executive Committee, comprised of Robert Crandall (Chairman) and William Etherington. The purpose of the Executive Committee is to provide a degree of flexibility and ability to respond to time-sensitive matters where it is impractical to call a meeting of the full Board. The Committee reviews such matters and makes such recommendations thereon to the Board as it considers appropriate, including matters designated by the Board as requiring Committee review. Members of the Committee also meet approximately once a month on an informal basis to review and stay informed about current business issues. The Board is briefed on these issues at their regularly scheduled meetings or, if the matter is material, between regularly scheduled meetings. The mandate of the Executive Committee is posted on our website at www.celestica.com. See "Who We Are"/"Corporate Governance".

All decisions of the Committee are submitted to the Board for approval or ratification.

Assessments

Assessments of the Board and its Directors

The Mandate of the Board of Directors requires the Board to evaluate and review the performance of the Board, its committees and its directors. The scope, focus and requirements of the evaluation and review will vary from year to year. The Board of Directors of the Corporation has retained an external advisor to assist in these evaluations. The evaluation process for a given year may involve all or any of: a careful examination of individual directors, committees and the Board, and of the Board's role, objectives, and relationship with management, and peer review by the directors. The results of the evaluation, and feedback on the evaluation process itself, are integrated into the next year's Board evaluation cycle.

Retirement

Celestica does not have a retirement policy for its directors.

Succession Planning

In accordance with its mandate, the Compensation Committee oversees succession planning for the CEO, the other NEOs, all other positions that report to the CEO and any other positions deemed by the CEO to be "mission critical". Mr. Muhlhauser and Ms. DelBianco solicit input from the Compensation Committee members with respect to such succession planning and interface regularly with them throughout the year on this topic. Each July, the Compensation Committee conducts an in-depth review of each of the succession plans with Mr. Muhlhauser and Ms. DelBianco in order to satisfy itself that the succession plans meet the needs of the Corporation. Progress reports are provided at other meetings throughout the year as appropriate.

Our relentless focus on operational efficiency and our strong supply chain network have enabled us to deliver innovative supply chain solutions that address the needs of our customers and generate value for our shareholders.

We have a clear vision for the future and a plan to drive continued operational and financial improvement.

2009 Financial Highlights

Revenue for 2009 was \$6.1 billion, a decrease of 21% from \$7.7 billion in 2008. Each of our major end markets experienced year-over-year declines, except our consumer segment, which was relatively flat as a result of our growth in smartphones.

GAAP net earnings for 2009 were \$55.0 million, or \$0.24 per share, compared to a GAAP net loss of \$720.5 million, or \$3.14 per share, for 2008. The GAAP net loss in 2008 was primarily a result of an \$850.5 million, or \$3.71 per share, write-off for impairment of goodwill. Adjusted net earnings* for 2009 were \$158.5 million, or \$0.69 per share, compared to \$204.2 million, or \$0.89 per share, in 2008.

Adjusted gross margin as a percentage of revenue improved to 7.4%, compared to 7.1% in 2008, primarily a reflection of continued operational improvements.

We were diligent in reducing operating expenses in 2009, with selling, general and administrative (SG&A) expenses decreasing by 16%, or approximately \$50 million, to \$244.5 million, compared to 2008. The decrease in SG&A for 2009 was primarily a result of lower foreign exchange losses and a reduction in overall costs.

In 2009, Celestica continued its leadership position in ROIC. Our strong performance culminated in the fourth quarter when

our ROIC reached 27.5% — the best in the company's history. A key driver of this success has been our quarterly inventory turnover*, where we have led our North American peers for the past two years.

We also finished 2009 with an exceptionally strong balance sheet. We repaid approximately \$500 million of debt in 2009, and we were still able to grow our net cash position by 50% to over \$700 million at December 31, 2009, representing one of the strongest net cash positions in our industry. Together with the redemption of our remaining \$223 million of debt in March 2010, we expect an estimated annual savings of more than \$30 million in net interest expense.

Overall, our results were very strong in 2009, and I would like to thank all of Celestica's employees, who number over 30,000, for their unwavering passion and commitment to delivering this performance.

Outlook

As we look to 2010 and beyond, our vision is to become the undisputed industry leader. Being the leader doesn't necessarily mean being the biggest — it means being the best performing company for our customers, while delivering industry-leading financial returns.

For 2010, we will begin turning this vision into reality by raising the bar in operational performance, securing higher-value customer opportunities, investing for growth and strengthening our organization through employee empowerment.

We have established financial targets that we will be working towards over the next three years. The targets include achieving a compound annual revenue growth rate of 6% to 8%, achieving annual operating margins of 3.5% to 4.0%, generating annual ROIC of greater than 20%, and generating annual free cash

flow of between \$100 million and \$200 million.

We are focused on continuing to deliver flawless new customer program launches and achieving best-in-class benchmarks in operational performance. Our goal is to rank first or second on our customers' performance scorecards. We intend to leverage information technology and business analytics to achieve the speed, flexibility and transparency that will drive further improvements in innovation, productivity and responsiveness for our customers.

As we work towards achieving these goals, we will continue to focus on investment opportunities that deliver profitable growth, expand our capabilities and support our financial objectives. We plan to strengthen our capabilities in design, engineering and after-market services so that we can offer our customers innovative solutions across their entire supply chain. We also plan to grow our business in targeted end markets, including commercial aerospace and defense, healthcare, industrial and green technology, while continuing to pursue higher-value opportunities with existing customers.

Investing in our people and empowering them to deliver innovative solutions for our customers is paramount to our continued success. We firmly believe that it is our employees that differentiate Celestica in the marketplace and, therefore, we are focused on maintaining what we believe are industry-leading levels of employee engagement.

While we operate in a fiercely competitive industry, we enter 2010 confident, highly motivated and with an exceptionally strong financial position to compete and win in the markets we serve. We are committed to becoming the undisputed industry leader by enabling our customers' success and by delivering improved financial returns for our shareholders.

* The financial highlights data is prepared in accordance with Canadian GAAP. See notes 1 and 2(s) to the consolidated financial statements.

- (1) Management uses non-GAAP measures to assess operating performance. Non-GAAP measures do not have any standardized meaning prescribed by Canadian or U.S. GAAP and are not necessarily comparable to similar measures presented by other companies. Non-GAAP measures are not a measure of performance under Canadian or U.S. GAAP and should not be considered in isolation or as a substitute for any standardized measure prepared in accordance with Canadian or U.S. GAAP.

Beginning in 2009, we revised the definition of the following non-GAAP measures - adjusted net earnings, return on invested capital, operating margin (EBIAT), adjusted gross margin and adjusted SG&A - to exclude (in addition to the items excluded under the previous definition) all stock-based compensation expense. These non-GAAP measures, including comparables for prior periods, reflect the revised definition, unless otherwise specified.

- (2) Management uses adjusted gross margin and adjusted SG&A to assess operating performance. Adjusted gross margin is calculated by dividing adjusted gross profit by revenue. Adjusted gross profit is calculated by excluding total stock-based compensation from GAAP gross profit. Adjusted SG&A percentage is calculated by dividing adjusted SG&A by revenue. Adjusted SG&A is calculated by excluding total stock-based compensation from GAAP SG&A.
- (3) Management uses EBIAT or EBIAT % (operating margin) as a measure to assess operating performance. Excluded from EBIAT are the effects of other charges, most significantly the write-down of goodwill and long-lived assets, gains or losses on the repurchase of shares or debt, and the related income tax effect of these adjustments, and any significant deferred tax write-offs or recoveries. We also exclude the following recurring charges: restructuring costs, total stock-based compensation (including option and restricted stock expense), amortization of intangible assets (except amortization of computer software), interest expense or income, and the related income tax effect of these adjustments. Management believes EBIAT, which isolates operating activities before interest and taxes, is an appropriate measure for management, as well as investors, to compare the company's operating performance from period-to-period. The company has provided a reconciliation of EBIAT to Canadian GAAP net earnings (loss).
- (4) For purposes of calculating diluted adjusted net earnings per share for 2005, 2006, 2007, 2008 and 2009, the weighted average number of shares outstanding, in millions, was 227.9, 228.0, 229.0, 229.6 and 230.9, respectively.
- (5) Management uses adjusted net earnings as a measure of enterprise-wide performance. Adjusted net earnings do not include the effects of other charges, most significantly the write-down of goodwill and long-lived assets, gains or losses on the repurchase of shares or debt, and the related income tax effect of these adjustments, and any significant deferred tax write-offs or recoveries. We also exclude the following recurring charges: restructuring costs, total stock-based compensation (including option and restricted stock expense), the amortization of intangible assets (except amortization of computer software), and the related income tax effect of these adjustments. Management believes adjusted net earnings is a useful measure for management, as

well as investors, to facilitate period-to-period operating comparisons at the company and with its major North American EMS competitors. The company has provided a reconciliation of adjusted net earnings to Canadian GAAP net earnings (loss).

- (6) Working capital, net of cash, is calculated as accounts receivable and inventory less accounts payable and accrued liabilities.
- (7) Management uses free cash flow as a measure to assess cash flow performance. Free cash flow is calculated as cash generated from operations less capital expenditures (net of proceeds from the sale of surplus property and equipment). Management believes that free cash flow is an appropriate measure for management, as well as investors, to compare cash flow performance from period-to-period. There is no comparable measure under GAAP.
- (8) Calculated as debt/capital. Debt consists of long-term debt. Capital includes total shareholders' equity and long-term debt.
- (9) Days sales outstanding is calculated by dividing average accounts receivable by average daily revenue. We use a five-point average to calculate average accounts receivable for the year.

Inventory turns is calculated by dividing cost of sales for the year by average inventory. We use a five-point average to calculate average inventory for the year.

Cash cycle days is calculated as the sum of days in accounts receivable and inventory, less the days in accounts payable (A/P). Beginning in 2009, we excluded accrued liabilities from the average A/P balance when calculating A/P days. We made this change to better align our definition of cash cycle days with that used by some of our major North American EMS competitors. We recalculated our cash cycle days for prior periods to reflect this change.

- (10) Management uses ROIC as a measure to assess the effectiveness of the invested capital it uses to build products or provide services to its customers. The ROIC metric used by the company includes operating margin, working capital management and asset utilization. ROIC is calculated by dividing EBIAT by average net invested capital. Net invested capital consists of total assets less cash, accounts payable, accrued liabilities and income taxes payable. We use a five-point average to calculate average net invested capital for the year. Management believes ROIC is an appropriate metric for management, as well as investors, to compare operating performance from period-to-period.
- (11) Stock-based compensation expense for 2005 includes \$6.8 million for the option exchange program.
