TORONTO, Canada - Celestica Inc. (NYSE, TSE: CLS), a world leader in electronics manufacturing services (EMS), today announced financial results for the fourth quarter and year ended December 31, 2000.

REVENUE for the three months ended December 31, 2000 was \$3,448 million, up 114 per cent from \$1,609 million in the fourth quarter of 1999, and up 33 per cent sequentially from the third quarter of 2000. The revenue increase was driven by strong growth in all geographies, strength in key end-markets such as communications and servers, solid performance from recent strategic acquisitions and an improved component environment.

ADJUSTED NET EARNINGS, which exclude the after-tax impact of amortization of intangible assets and integration costs related to acquisitions, increased 185 per cent to \$117.0 million, compared to \$41.0 million in the fourth quarter of 1999, and up 39 per cent from the third quarter this year. The year-over-year and sequential improvements resulted from the strong revenue growth and continued operating margin expansion in all three of the company's operating geographies.

ADJUSTED NET EARNINGS PER SHARE rose 136 per cent to \$0.52 per share compared to \$0.22 per share for the same period in 1999 and exceeded revenue growth rates. Sequentially, adjusted net earnings per share rose 33 per cent from the third quarter in 2000.

NET EARNINGS increased 219 per cent to \$83.5 million, or \$0.38 per share, compared to \$26.2 million or \$0.14 per share in the fourth quarter of 1999.

FOR THE FULL YEAR ended December 31, 2000, revenue was \$9,752 million, up 84 per cent from \$5,297 million in 1999. Adjusted net earnings were \$304 million, up 147 per cent from \$123.0 million compared to last year. Adjusted net earnings per share were \$1.44, up 103 per cent from \$0.71 for the same period last year. Net earnings were \$206.7 million or \$0.99 per share compared to \$68.4 million or \$0.40 per share last year.

"Celestica's strong fourth quarter results reflect the company's diversified position with its high-quality customer and end-market base, an improved component environment as well as exceptional execution by our global manufacturing teams," said Eugene Polistuk, president and CEO, Celestica Inc. "We are particularly pleased that despite absorbing such significant growth rates in the fourth quarter, Celestica continued to show gains in operating efficiencies reflected in expanding margins, increased working capital velocity and overall improved returns on capital."

"As the company moves forward, we see ongoing strength in outsourcing as customers look to optimize their manufacturing solutions and leverage Celestica's strong global supply chain and advanced technology capabilities. Having virtually achieved our \$10 billion revenue target one full-year ahead of plan, we feel we are well on our way to our new interim goal of \$20 billion in revenue by 2003."

FORWARD GUIDANCE

The company announced its guidance for both revenue and earnings in 2001. This guidance does not include any impact from acquisitions other than what has already been announced by the company.

FISCAL 2001: The company guidance for revenue for the full year is approximately \$12.5-\$13.0 billion in 2001 compared to \$9.8 billion achieved in 2000. Guidance for adjusted earnings per share in 2001 is approximately \$2.05-\$2.10 compared to \$1.44 achieved in 2000.

FIRST QUARTER 2001: In the first quarter, the company guidance for revenue is approximately \$2.6-\$2.7 billion. Guidance for adjusted earnings per share is approximately \$0.38-\$0.40 in the first quarter. The guidance in the first quarter reflects the seasonal sales and earnings pattern the company experiences from the fourth quarter to the first quarter, based on the company's participation in the high-end server and communications end-markets.

1. SEGMENTED INFORMATION:

The Company's operations fall into one dominant industry segment, the electronics manufacturing services industry. The Company manages its operations, and accordingly determines its operating segments, on a geographic basis. The performance of geographic operating segments is monitored based on EBIAT (earnings before interest, amortization of intangible assets, income taxes, integration costs related to acquisitions and other charges). The Company monitors enterprise-wide performance based on adjusted net earnings, which is calculated as net earnings before amortization of intangible assets, and integration costs related to acquisitions are reflected at market value.

The following is a breakdown of: revenue, EBIAT, adjusted net earnings and total assets by operating segment. Certain comparative information has been restated to reflect changes in the management of operating segments.
