

Second Quarter 2020 Financial Results

July 29, 2020

Cautionary Note Regarding Forward-Looking Statements

This presentation contains forward-looking statements, including, without limitation, those related to our future growth; trends in the electronics manufacturing services (EMS) industry and our segments (including the components thereof), and their anticipated impact on our business; and our anticipated financial and/or operational results and targets. Such forward-looking statements may, without limitation, be preceded by, followed by, or include words such as “believes,” “expects,” “anticipates,” “estimates,” “intends,” “plans,” “continues,” “project,” “potential,” “possible,” “contemplate,” “seek,” or similar expressions, or may employ such future or conditional verbs as “may,” “might,” “will,” “could,” “should” or “would,” or may otherwise be indicated as forward-looking statements by grammatical construction, phrasing or context. For those statements, we claim the protection of the safe harbor for forward-looking statements contained in the U.S. Private Securities Litigation Reform Act of 1995, and applicable Canadian securities laws.

Forward-looking statements are provided to assist readers in understanding management’s current expectations and plans relating to the future. Readers are cautioned that such information may not be appropriate for other purposes. Forward-looking statements are not guarantees of future performance and are subject to risks that could cause actual results to differ materially from those expressed or implied in such forward-looking statements, including, among others, risks related to: the scope, duration and impact of the coronavirus disease 2019 (COVID-19) pandemic; customer and segment concentration; challenges of replacing revenue from completed, lost or non-renewed programs or customer disengagements; our customers’ ability to compete and succeed with our products and services; the cyclical nature of our capital equipment business, particularly our semiconductor and display businesses; competitive factors and adverse market conditions affecting the EMS industry in general and our segments in particular (including the risk that anticipated market improvements do not materialize); changes in our mix of customers and/or the types of products or services we provide, including negative impacts of higher concentrations of lower margin programs; delays in the delivery and availability of components, services and materials; unanticipated changes in customer demand; the inability to maintain adequate utilization of our workforce; the expansion or consolidation of our operations; defects or deficiencies in our products, services or designs; integrating and achieving the anticipated benefits from acquisitions and “operate-in-place” arrangements; negative impacts on our business resulting from outstanding third-party indebtedness; rapidly evolving and changing technologies, and changes in our customers’ business or outsourcing strategies; customer, competitor and/or supplier consolidation; compliance with customer-driven policies and standards, and third party certification requirements, including climate change and other social responsibility initiatives; challenges associated with new customers or programs, or the provision of new services; the impact of restructuring actions and productivity initiatives, including a failure to achieve anticipated benefits from actions associated with the review of our Connectivity & Cloud Solutions segment portfolio (CCS Review), including our disengagement from programs with Cisco Systems, Inc. (Cisco Disengagement); the incurrence of future restructuring charges, impairment charges or operating losses; managing our business during uncertain market, political and economic conditions, including, among others, geopolitical and other risks associated with our international operations, including military actions, protectionism and reactive countermeasures, economic or other sanctions or trade barriers; disruptions to our operations, or those of our customers, component suppliers and/or logistics partners, including as a result of events outside of our control, including, among others: Britain’s departure from the European Union (Brexit), policies or legislation proposed or instituted by the current administration in the U.S., the potential impact of significant tariffs on items imported into the U.S. and related countermeasures, and/or the impact of (in addition to COVID-19) other widespread illness or disease; changes to our operating model; changing commodity, materials and component costs as well as labor costs and conditions; retaining or expanding our business due to execution or quality issues (including our ability to successfully resolve these challenges); non-performance by counterparties; maintaining sufficient financial resources to fund currently anticipated financial obligations and to pursue desirable business opportunities; negative impacts on our business resulting from any significant uses of cash, securities issuances, and/or additional increases in third-party indebtedness; foreign currency volatility; our global operations and supply chain; recruiting or retaining skilled talent; our dependence on industries affected by rapid technological change; our ability to protect intellectual property and confidential information; increasing taxes, tax audits, and challenges of defending our tax positions; obtaining, renewing or meeting the conditions of tax incentives and credits; computer viruses, malware, hacking attempts or outages that may disrupt our operations; the inability to prevent or detect all errors or fraud; the variability of revenue and operating results; a failure to qualify for and/or collect anticipated COVID-19-related governmental subsidies (Subsidies); compliance with applicable laws, regulations, and government grants (including any Subsidies received); the management of our IT systems; our pension and other benefit plan obligations; changes in accounting judgments, estimates and assumptions; our ability to maintain compliance with applicable credit facility covenants; interest rate fluctuations; deterioration in financial markets or the macro-economic environment; and current or future litigation, governmental actions, and/or changes in legislation or accounting standards. The foregoing and other material risks and uncertainties are discussed in our public filings at www.sedar.com and www.sec.gov, including in our Management’s Discussion and Analysis of Financial Condition and Results of Operations for the three and six months ended June 30, 2020, our most recent Annual Report on Form 20-F filed with, and subsequent reports on Form 6-K furnished to, the U.S. Securities and Exchange Commission (SEC), and as applicable, the Canadian Securities Administrators.

Our forward-looking statements are based on various assumptions, many of which involve factors that are beyond our control. Our material assumptions include those related to the following: fluctuation of production schedules from our customers in terms of volume and mix of products or services; the scope and duration of the COVID-19 pandemic and its impact on our sites, customers and supply chain; our ability to qualify for, and to the extent received, maintain compliance with the conditions of, specified Subsidies; the timing and execution of, and investments associated with, ramping new business; the successful pursuit, completion and integration of acquisitions; the success of our customers’ products; our ability to retain programs and customers; the stability of general economic and market conditions, currency exchange rates, and interest rates; supplier performance, pricing and terms; compliance by third parties with their contractual obligations and the accuracy of their representations and warranties; the costs and availability of components, materials, services, equipment, labor, energy and transportation; that our customers will retain liability for recently-imposed tariffs and countermeasures; global tax legislation changes; our ability to keep pace with rapidly changing technological developments; the timing, execution and effect of restructuring actions; the successful resolution of quality issues that arise from time to time; our having sufficient financial resources to fund currently anticipated financial obligations and to pursue desirable business opportunities; our ability to successfully diversify our customer base and develop new capabilities; that we achieve the expected benefits from our recent acquisitions; the impact of actions associated with the CCS Review (including the Cisco Disengagement) on our business, and that we achieve the anticipated benefits therefrom; anticipated demand strength in certain of our businesses; and demand weakness in, and/or the impact of anticipated adverse market conditions on, certain of our businesses. Although management believes its assumptions to be reasonable under the current circumstances, they may prove to be inaccurate, which could cause actual results to differ materially (and adversely) from those that would have been achieved had such assumptions been accurate. Forward-looking statements speak only as of the date on which they are made, and we disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by applicable law.

All forward-looking statements attributable to us are expressly qualified by these cautionary statements.

In addition, this presentation refers to non-International Financial Reporting Standards (IFRS) measures. Non-IFRS measures do not have any standardized meaning prescribed by IFRS and may not be comparable to similar measures presented by other public companies that use IFRS, or who report under U.S. GAAP and use non-GAAP measures to describe similar operating metrics. Non-IFRS measures are not measures of performance under IFRS and should not be considered in isolation or as a substitute for any standardized measure under IFRS. We do not provide reconciliations for forward-looking non-IFRS financial measures, as we are unable to provide a meaningful or accurate calculation or estimation of reconciling items and the information is not available without unreasonable effort. Forward-looking non-IFRS measures may vary materially from the corresponding IFRS financial measures.

CEO Remarks

Q2 2020 Highlights

| \$US | Q2 2020 | Comments |
|-----------------------------------|---------|--|
| Revenue | \$1.49B | 3% YTY Increase; 11% YTY Decrease in ATS 12% YTY Increase in CCS |
| IFRS Net Earnings | \$13.3M | Up \$19.4M YTY |
| IFRS Earnings per Share - diluted | \$0.10 | Up 15 cents YTY |
| Non-IFRS Operating Margin | 3.4% | Up 0.9% YTY ¹ |
| Non-IFRS Adjusted EPS – diluted | \$0.25 | Up 13 cents YTY ¹ |
| Non-IFRS Adjusted ROIC | 12.9% | Up 4.5% YTY ¹ |

¹ See the Appendix for a reconciliation of non-IFRS financial measures to the most directly comparable IFRS measures.

ATS¹ and CCS² Segment Revenue and Profitability

Q2 2019 Revenue ⁴

Q2 2020 Revenue ⁵

Q2 2019 % of Total Segment Income

Q2 2020 % of Total Segment Income

| 2Q20 Revenue \$ | Sequential | Year over Year |
|-------------------------------|---------------|----------------|
| ATS | Down 9% | Down 11% |
| CCS | Up 29% | Up 12% |
| <i>Communications</i> | <i>Up 27%</i> | <i>Up 14%</i> |
| <i>Enterprise³</i> | <i>Up 32%</i> | <i>Up 10%</i> |

| Segment Income ⁶ | 2Q19 | 2Q20 |
|-----------------------------|-------|-------|
| ATS | 15.8M | 15.5M |
| CCS | 20.9M | 35.3M |

| Segment Margin ⁶ \$ | 2Q19 | 2Q20 |
|--------------------------------|------|------|
| ATS | 2.8% | 3.1% |
| CCS | 2.4% | 3.6% |

¹ Our ATS segment consists of our ATS end market, and is comprised of our Aerospace & Defense, Industrial, Energy, Healthtech, and Capital Equipment businesses.

² Our CCS segment consists of our Communications and Enterprise end markets.

³ Our Enterprise end market consists of our Servers and Storage businesses.

⁴ In Q2 2019, our Communications end market represented 39% of total revenue and our Enterprise end market represented 22% of total revenue.

⁵ In Q2 2020, our Communications end market represented 43% of total revenue and our Enterprise end market represented 23% of total revenue.

⁶ See footnote 1 on slide 12 for the definition of segment income and segment margin.

Q2 2020 Highlights¹

| \$US Millions (Except for per share amounts and %) | Q2 2020 | B/(W) QTQ (vs. Q1 2020) | B/(W) YTY (vs. Q2 2019) |
|---|----------------|-----------------------------------|-----------------------------------|
| Revenue | \$1,492 | \$173.8 | \$46.8 |
| IFRS Net Earnings | \$13.3 | \$16.5 | \$19.4 |
| IFRS Earnings per Share - diluted | \$0.10 | \$0.12 | \$0.15 |
| Non-IFRS Adjusted Gross Margin | 7.5% | 0.2% | 0.5% |
| Non-IFRS Adjusted SG&A | \$53.3 | (\$3.4) | \$2.6 |
| Non-IFRS Adjusted EBIAT | \$50.8 | \$12.7 | \$14.1 |
| Non-IFRS Operating Margin | 3.4% | 0.5% | 0.9% |
| Non-IFRS Adjusted Effective Tax Rate | 24% | Flat | 12% |
| Non-IFRS Adjusted Net Earnings | \$31.7 | \$11.0 | \$16.3 |
| Non-IFRS Adjusted EPS – diluted | \$0.25 | \$0.09 | \$0.13 |
| Non-IFRS Adjusted ROIC | 12.9% | 3.4% | 4.5% |

¹ See the Appendix for definitions of the non-IFRS measures set forth in the table, and a reconciliation of such non-IFRS financial measures to the most directly comparable IFRS measures.

Working Capital / Capex / Non-IFRS Free Cash Flow¹

| Q2 2020 (\$US) | | |
|-----------------------------------|---|--|
| 4.9 inventory turns ² | ➡ | Inventory turns increased by 0.1x sequentially (Inventory up \$134M sequentially and up \$120M YTY) |
| \$11M Capex | ➡ | 1% of Revenue |
| \$38M Free Cash Flow ¹ | ➡ | Strong YTD Free Cash Flow of \$92M |

Cash Cycle Days²

| | 2Q19 | 1Q20 | 2Q20 |
|------------------------------------|-----------|-----------|-----------|
| Days in A/R | 65 | 70 | 65 |
| Days in Inventory | 73 | 77 | 75 |
| Days in A/P | (64) | (68) | (68) |
| Days in Cash Deposits ³ | (9) | (10) | (12) |
| Cash Cycle Days | 65 | 69 | 60 |

¹ See the Appendix for a reconciliation of non-IFRS free cash flow to IFRS cash provided by operations.

² Not defined under IFRS.

³ Represents cash deposits made by certain customers to cover our risk of excess and obsolete inventory, and/or for working capital requirements.

Balance Sheet

\$US

At June 30, 2020

Cash and cash equivalents

\$436M

Revolver (excluding L/Cs)

-

Term Loans

\$470M

Net Debt: \$34M

As of June 30, 2020, Celestica's non-IFRS debt leverage ratio was 1.7x. See the definitions below and the Appendix for a reconciliation of non-IFRS debt leverage ratio to the most directly comparable measure determined under IFRS.

Non-IFRS debt leverage ratio is defined as gross debt divided by non-IFRS trailing twelve month (TTM) adjusted EBITDA (each defined below). Debt leverage ratio and TTM adjusted EBITDA are non-IFRS financial measures. Non-IFRS measures do not have any standardized meaning prescribed by IFRS and may not be comparable to similar measures presented by other public companies that use IFRS, or who report under U.S. GAAP and use non-GAAP measures to describe similar operating metrics.

Gross debt is defined as the total borrowings under our credit facility, excluding ordinary course letters of credit (\$470M as of June 30, 2020).

Non-IFRS TTM adjusted EBITDA as of June 30, 2020 is defined as the sum of non-IFRS adjusted EBITDA for Q2 2020 and each of the previous three quarters. See the Appendix for details on how non-IFRS adjusted EBITDA is calculated, as well as a reconciliation of historical non-IFRS adjusted EBITDA to IFRS earnings before income taxes for each such period.

[‡]Refers to notes to our Q2 2020 unaudited interim condensed consolidated financial statements (Q2 2020 Interim Financial Statements)

¹ Segment income is defined as a segment's net revenue less its cost of sales and its allocable portion of selling, general and administrative expenses and research and development expenses (collectively, Segment Costs). Identifiable Segment Costs are allocated directly to the applicable segment while other Segment Costs, including indirect costs and certain corporate charges, are allocated to our segments based on an analysis of the relative usage or benefit derived by each segment from such costs. Segment income excludes Finance Costs (defined below), employee SBC expense, amortization of intangible assets (excluding computer software), Other Charges (recoveries) (defined below), and when applicable, acquired inventory fair value adjustments, as these costs and charges/recoveries are managed and reviewed by our CEO at the company level. Finance Costs consist of interest expense and fees related to our credit facility (including any debt issuance and related amortization costs), our interest rate swap agreements, our accounts receivable sales program and our customers' supplier financing programs, and interest expense on our lease obligations, net of interest income earned. Other Charges (recoveries) consist of restructuring charges (recoveries), impairment charges (recoveries), acquisition-related consulting, transaction and integration costs and charges related to the subsequent re-measurement of indemnification assets recorded in connection with our acquisition of Impakt Holdings, LLC, legal settlements (recoveries), transition costs (recoveries) (defined in note 9(b) to our Q2 2020 Interim Financial Statements), credit facility-related waiver fees (Q4 2019), and post-employment benefit plan losses (Q4 2019). See note 9 to our Q2 2020 Interim Financial Statements for separate quantification and discussion of the components of Other Charges (recoveries) for the periods set forth in the table above. Segment margin is segment income as a percentage of segment revenue.

IFRS to non-IFRS Reconciliation*

IFRS to non-IFRS Reconciliation...continued*

- (1) IFRS earnings (loss) per diluted share is calculated by dividing IFRS net earnings (loss) by the number of diluted weighted average shares outstanding (DWAS). In order to calculate IFRS loss per diluted share for Q1 2020, we used a DWAS of 129.0 million as at March 31, 2020. Because we reported a net loss on an IFRS basis in Q1 2020, the DWAS for such period-end excluded 0.2 million subordinate voting shares (SVS) underlying in-the-money stock-based awards, as including these shares would be anti-dilutive. However, we included these shares in the DWAS used to calculate non-IFRS adjusted earnings (per diluted share) for Q1 2020 because such shares were dilutive in relation to this non-IFRS measure (Q4 2019 – DWAS of 128.5 and excluded 0.9 million SVS for IFRS loss calculation; Q3 2019 – DWAS of 128.5 million and excluded 0.8 million SVS for IFRS loss calculation; Q2 2019 – 131.1 million DWAS and excluded 0.8 million SVS for IFRS loss calculation).
- (2) Management uses non-IFRS operating earnings (adjusted EBIAT) as a measure to assess performance related to our core operations. Non-IFRS adjusted EBIAT is defined as earnings (loss) before income taxes, Other Charges (recoveries) (defined in footnote 1 to slide 12), Finance Costs (defined in footnote 1 to slide 12), employee SBC expense, and amortization of intangible assets (excluding computer software). See our quarterly earnings releases and MD&A for separate quantification and discussion of the components of Other Charges (recoveries) for each such period.
- (3) Non-IFRS adjusted EBITDA is defined as earnings (loss) before income taxes, Other Charges (recoveries) (defined in footnote 1 to slide 12), Finance Costs (defined in footnote 1 to slide 12), employee SBC expense, the amortization of intangible assets (excluding computer software), and depreciation expense (under IFRS 16 and in relation to PP&E and computer software). See our quarterly earnings releases and MD&A for separate quantification of the components of Other Charges (recoveries) for each such period.
- (4) TTM earnings before income taxes as of any quarter-end is defined as the sum of earnings before income taxes as of such quarter-end plus earnings before income taxes as of the end of each of the preceding three fiscal quarters. Non-IFRS TTM adjusted EBITDA as of any quarter-end is defined as the sum of non-IFRS adjusted EBITDA as of such quarter-end plus non-IFRS adjusted EBITDA as of the end of each of the preceding three fiscal quarters.
- (5) Non-IFRS adjusted net earnings is defined as net earnings before: employee SBC expense; amortization of intangible assets (excluding computer software); Other Charges (recoveries) (defined in footnote 1 to slide 12); the income tax effect of the foregoing adjustments; and non-core tax impacts (tax adjustments related to acquisitions, and certain other tax costs or recoveries related to restructuring actions or restructured sites). See our quarterly earnings releases and MD&A for quantification of the components of Other Charges (recoveries), tax adjustments and non-core tax impacts for each such period.
- (6) Management uses non-IFRS adjusted ROIC as a measure to assess the effectiveness of the invested capital we use to build products or provide services to our customers, by quantifying how well we generate earnings relative to the capital we have invested in our business. Non-IFRS adjusted ROIC is calculated by dividing non-IFRS adjusted EBIAT by average net invested capital. Net invested capital is defined as total assets less: cash, ROU assets, accounts payable, accrued and other current liabilities and provisions, and income taxes payable. We use a two-point average to calculate average net invested capital for the quarter and a three-point average to calculate average net invested capital for the six-month period. A comparable measure under IFRS would be determined by dividing IFRS earnings (loss) before income taxes by average net invested capital, however, this measure (which we have called IFRS ROIC), is not a measure defined under IFRS.
- (7) Management uses non-IFRS free cash flow as a measure, in addition to IFRS cash provided by (used in) operations, to assess our operational cash flow performance. We believe non-IFRS free cash flow provides another level of transparency to our liquidity. Non-IFRS free cash flow is defined as cash provided by (used in) operations after the purchase of property, plant and equipment (net of proceeds from the sale of certain surplus equipment and property, including from the sale of our Toronto real property), lease payments (including under IFRS 16) and finance costs paid (excluding any debt issuance costs and when applicable, waiver fees related to our credit facility paid). We do not consider debt issuance costs (nil and \$0.3 million paid in Q2 2020 and 1H 2020, respectively; \$0.9 million and \$1.8 million paid in Q1 2019 and 1H 2019, respectively) or waiver fees related to our credit facility (\$2.0 million paid in Q4 2019) to be part of our core operating expenses. As a result, these costs are excluded from total finance costs paid in our determination of non-IFRS free cash flow. Note, however, that non-IFRS free cash flow does not represent residual cash flow available to Celestica for discretionary expenditures.
