

# First Quarter 2025 Financial Results

April 25, 2025

# Cautionary Note Regarding Forward-Looking Statements

*This presentation contains forward-looking statements, including, without limitation, those related to: strengthening demand in our CCS segment, demand environment and customer forecasts, our anticipated financial and/or operational results, guidance and outlook, including statements under the headings "Q2 2025 Guidance", "Q2 2025 Non-GAAP Tax Rate Estimate", "Q2 2025 End Market Revenue Outlook", "2025 Annual Outlook" and "Business Outlook", developments related to new customer wins, program inclusions, timing of production ramps, anticipated economic conditions, industry trends, customer demand, prospects and opportunities, and strategic initiatives. Such forward-looking statements may, without limitation, be preceded by, followed by, or include words such as "believes," "expects," "anticipates," "estimates," "intends," "plans," "expects," "continues," "project," "target," "outlook," "goal," "guidance," "potential," "possible," "contemplate," "seek," or similar expressions, or may employ such future or conditional verbs as "may," "might," "will," "could," "should," or "would," or may otherwise be indicated as forward-looking statements by grammatical construction, phrasing or context. For those statements, we claim the protection of the safe harbor for forward-looking statements contained in the U.S. Private Securities Litigation Reform Act of 1995, where applicable, and for forward-looking information under applicable Canadian securities laws.*

*Forward-looking statements are provided to assist readers in understanding management's current expectations and plans relating to the future. Forward-looking statements reflect our current estimates, beliefs and assumptions, which are based on management's perception of historic trends, current conditions and expected future developments, as well as other factors it believes are appropriate in the circumstances, including certain assumptions about anticipated CCS and ATS revenue growth; anticipated demand levels across our businesses; continuing operating leverage and improving mix; the impact of anticipated market conditions on our businesses; tax and interest rates; continued advancement and commercialization of artificial intelligence (AI) technologies and cloud computing; sustained high levels of capital expenditure investments by leading hyperscaler, AI, and data center customers; the economy; our customers; our suppliers; no material changes to tariffs or trade restrictions compared to what are in effect as of April 24, 2025; that our customers will retain liability for and we will be able to recover substantially all costs from customers relating to product/component tariffs and countermeasures; no material changes in business activities resulting from current macroeconomic trends and uncertainties, including evolving global tariff and trade negotiations; our ability to achieve our strategic goals; the number of outstanding shares; as well as other market, financial and operational assumptions. Readers are cautioned that such information may not be appropriate for other purposes. Readers should not place undue reliance on such forward-looking information.*

*Forward-looking statements are not guarantees of future performance and are subject to risks that could cause actual results to differ materially from those expressed or implied in such forward-looking statements, including, among others, risks related to: customer and segment concentration; reduction in customer revenue; erosion in customer market competitiveness; changing revenue mix and margins; uncertain market, industry, political and economic conditions; customer requests to transfer manufacturing of products from one facility to another; changes to policies or legislation; operational challenges such as inventory management and materials and supply chain constraints; and program ramps; the cyclical nature and/or volatility of certain of our businesses; talent management and inefficient employee utilization; risks related to the expansion or consolidation of our operations; cash flow, revenue, and operating results, and tax and interest variability; technology and IT disruption; increasing legal, tax and regulatory complexity and uncertainty (including in relation to our or our customers' businesses); integrating and achieving the anticipated benefits from acquisitions; and the potential adverse impacts of events outside of our control.*

*For more exhaustive information on the foregoing and other material risks, uncertainties and assumptions readers should refer to our public filings at [www.sedarplus.ca](http://www.sedarplus.ca) and [www.sec.gov](http://www.sec.gov), including in our most recent Management's Discussion and Analysis of Financial Condition and Results of Operations, Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and other documents filed with, or furnished to, the U.S. Securities and Exchange Commission, and the Canadian Securities Administrators, as applicable.*

*Forward-looking statements speak only as of the date on which they are made, and we disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as expressly required by applicable law.*

*All forward-looking statements attributable to us are expressly qualified by these cautionary statements.*

## Note Regarding Non-GAAP Financial Measures

*In addition to disclosing detailed operating results in accordance with Generally Accepted Accounting Principles (GAAP), this presentation refers to non-GAAP financial measures (including ratios) to consider in evaluating the Company's operating performance. Management uses adjusted net earnings and other non-GAAP financial measures to assess operating performance, financial leverage and the effective use and allocation of resources; to provide more normalized period-to-period comparisons of operating results; to enhance investors' understanding of the core operating results of Celestica's business; and to set management incentive targets. We believe investors use both GAAP and non-GAAP financial measures to assess management's decisions associated with our priorities and capital allocation, as well as to analyze how our business operates in, or responds to, macroeconomic trends or other events that impact our core operations.*

*Non-GAAP financial measures do not have any standardized meaning prescribed by GAAP and may not be comparable to similar measures presented by other public companies that report under GAAP and use non-GAAP financial measures to describe similar operating metrics. Non-GAAP financial measures are not measures of performance under GAAP and should not be considered in isolation or as a substitute for any GAAP financial measure. We do not provide reconciliations for forward-looking non-GAAP financial measures, as the items that we exclude from GAAP to calculate the comparable non-GAAP measure are dependent on future events that are not able to be reliably predicted by management and are not part of our routine operating activities. We are unable to provide such a reconciliation without unreasonable effort due to the uncertainty and inherent difficulty in predicting the occurrence, the financial impact and the periods in which the adjustments may be recognized. The occurrence, timing and amount of any of the items excluded from GAAP to calculate non-GAAP could significantly impact our forward-looking GAAP results. Forward-looking non-GAAP financial measures may vary materially from the corresponding GAAP financial measures.*

## Currency

*Unless otherwise specified, all references to dollars in this presentation are to U.S. dollars.*

# CEO Remarks

# Q1 2025 Results<sup>1</sup>

	Q1 2025	YTY <sup>2</sup>	Q1 2025 Guidance
Revenue	\$2.649B	+20%	\$2.475B - \$2.625B
GAAP Earnings from Operations as a % of Revenue	4.9%	-80 bps	
GAAP EPS	\$0.74	-4%	
Adjusted Operating Margin (Non-GAAP)	7.1%	+120 bps	6.8%
Adjusted EPS (Non-GAAP)	\$1.20	+45%	\$1.06 - \$1.16

<sup>1</sup> See “Note Regarding Non-GAAP Financial Measures”. Also see the Appendix for, among other things, definitions and uses of non-GAAP financial measures (including ratios based on non-GAAP financial measures) set forth in the table and a reconciliation of these non-GAAP financial measures (or, in the case of ratios, the non-GAAP financial measure used in calculating such ratio) to the most directly comparable GAAP financial measures.

<sup>2</sup> “YTY” reflects change vs. Q1 2024 figures.

# Q1 2025 Highlights<sup>1</sup>

<b>GAAP financial measures</b> \$ Millions (Except for per share amounts and %)	<b>Q1 2025</b>	<b>B/(W) QTQ<sup>2</sup></b>	<b>B/(W) YTY<sup>2</sup></b>
Revenue	\$2,649	\$103	\$440
Gross Margin	10.3%	(1.4%)	0.2%
Earnings from Operations	\$128.8	(\$73.8)	\$3.0
Earnings from Operations as a % of Revenue	4.9%	(3.1%)	(0.8%)
Effective Tax Rate	24%	(4%)	(11%)
EPS	\$0.74	(\$0.55)	(\$0.03)
ROIC %	21.6%	(12.4%)	(1.3%)

<b>Non-GAAP financial measures</b>	<b>Q1 2025</b>	<b>B/(W) QTQ<sup>2</sup></b>	<b>B/(W) YTY<sup>2</sup></b>
Adjusted Gross Margin (non-GAAP)	11.0%	Flat	1.1%
Adjusted Operating Earnings (adjusted EBIAT) (non-GAAP)	\$187.8	\$14.2	\$57.2
Adjusted Operating Margin (non-GAAP)	7.1%	0.3%	1.2%
Adjusted Effective Tax Rate (non-GAAP)	20%	(1%)	(5%)
Adjusted EPS (non-GAAP)	\$1.20	\$0.09	\$0.37
Adjusted ROIC % (non-GAAP)	31.5%	2.4%	7.7%

<sup>1</sup> See “Note Regarding Non-GAAP Financial Measures”. Also see the Appendix for, among other things, definitions and uses of non-GAAP financial measures (including ratios based on non-GAAP financial measures) set forth in the table and a reconciliation of these non-GAAP financial measures (or, in the case of ratios, the non-GAAP financial measure used in calculating such ratio) to the most directly comparable GAAP financial measures.

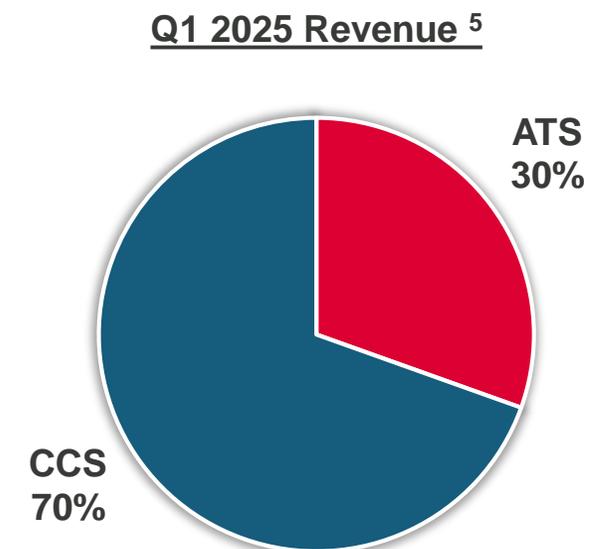

<sup>2</sup> “QTQ” reflects change vs. Q4 2024 figures and “YTY” reflects change vs. Q1 2024 figures.

# ATS<sup>1</sup> and CCS<sup>2</sup> Segment Revenue and Profitability

Revenue	\$ Millions	Q1 2025	YTY <sup>3</sup>
	ATS	\$807	Up 5%
	CCS	\$1,842	Up 28%
	<i>Communications</i>	<i>\$1,428</i>	<i>Up 87%</i>
	<i>Enterprise<sup>4</sup></i>	<i>\$414</i>	<i>Down 39%</i>

Segment Income <sup>6</sup>	\$ Millions	Q1 2025	YTY <sup>3</sup>
	ATS	\$41	Up 28%
	CCS	\$147	Up 49%

Segment Margin <sup>6</sup>		Q1 2025	YTY <sup>3</sup>
	ATS	5.0%	Up 80 bps
	CCS	8.0%	Up 120 bps

<sup>1</sup> Our ATS segment consists of our ATS end market, and is comprised of our Aerospace & Defense (A&D), Industrial, HealthTech, and Capital Equipment businesses.

<sup>2</sup> Our CCS segment consists of our Communications and Enterprise end markets.

<sup>3</sup> "YTY" reflects change vs. Q1 2024 figures.

<sup>4</sup> Our Enterprise end market consists of our Servers and Storage businesses.

<sup>5</sup> In Q1 2025, Communications represented 54% of total revenue and Enterprise represented 16% of total revenue.

<sup>6</sup> See footnote 1 on slide 18 for the definition of segment income and segment margin.

# Working Capital

\$ Millions	Q1 2025	B/(W) QTQ <sup>4</sup>	B/(W) YTY <sup>4</sup>
Inventory Turns <sup>1</sup>	5.4x	0.4x	1.5x
Inventory	\$1,788	(\$28)	\$163
Customer Cash Deposits for Inventory <sup>2</sup>	\$472	(\$40)	(\$248)

# Cash Cycle Days

	Q1 2025	Q4 2024	Q1 2024
Days in A/R <sup>3</sup>	72	73	75
Days in Inventory <sup>3</sup>	68	73	93
Days in A/P <sup>3</sup>	(51)	(55)	(62)
Days in Cash Deposits <sup>2,3</sup>	(20)	(22)	(38)
<b>Cash Cycle Days<sup>3</sup></b>	<b>69</b>	<b>69</b>	<b>68</b>

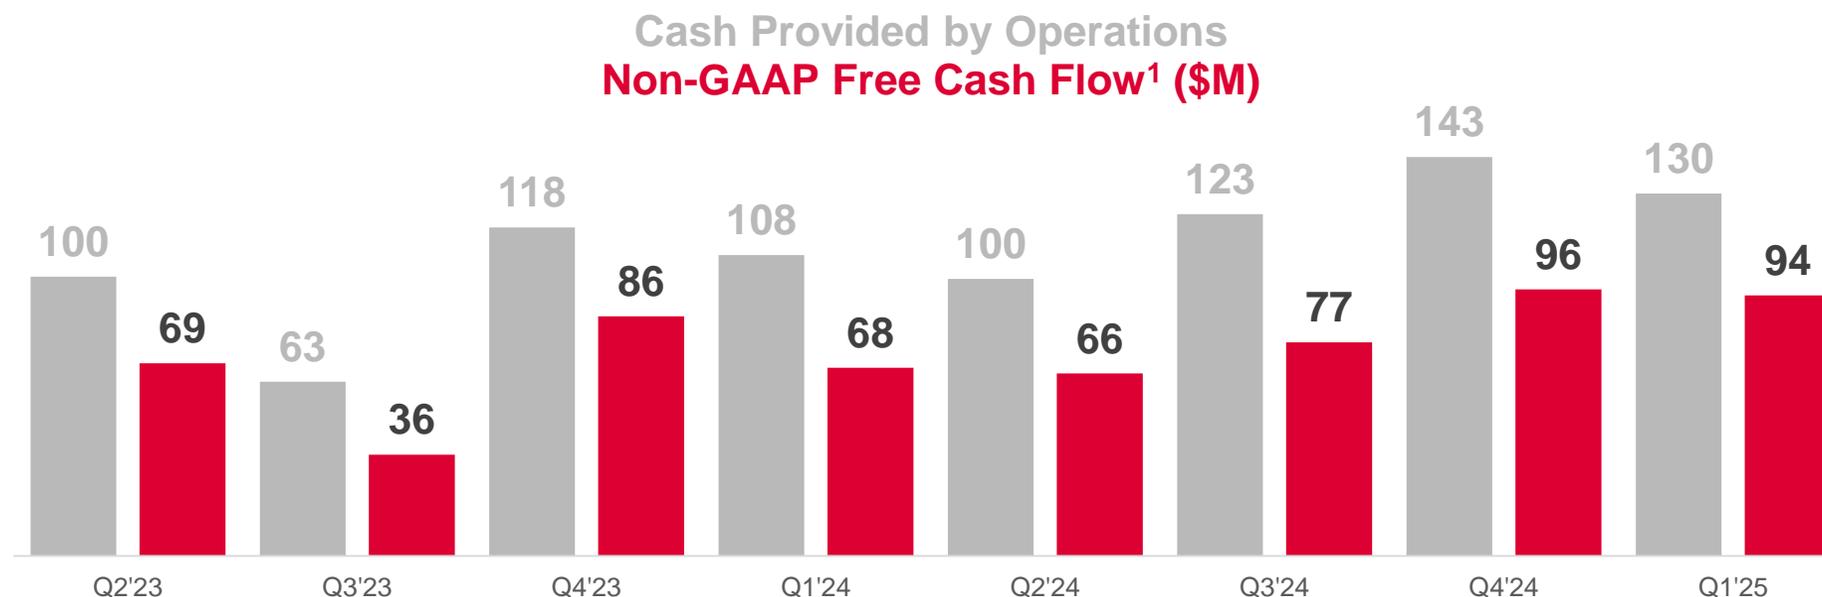

<sup>1</sup> Inventory turns are determined by dividing 365 by the number of days in inventory. Days in inventory are calculated by dividing the average inventory balance for the quarter by the average daily cost of sales.

<sup>2</sup> Celestica receives cash deposits from certain customers to alleviate the impact of inventory purchases on our cash flows, and to reduce risks related to excess and/or obsolete inventory.

<sup>3</sup> Days in A/R is defined as the average A/R for the quarter divided by the average daily revenue. Days in inventory, days in A/P and days in cash deposits are calculated by dividing the average balance for each item for the quarter by the average daily cost of sales. Cash cycle days is defined as the sum of days in A/R and days in inventory minus the days in A/P and days in cash deposits.

<sup>4</sup> "QTQ" reflects change vs. Q4 2024 figures and "YTY" reflects change vs. Q1 2024 figures.

# Cash Flow Overview

\$ Millions	Q1 2025	QTQ <sup>2</sup> Increase/(Decrease)	YTY <sup>2</sup> Increase/(Decrease)
Capex	\$37	(\$11)	(\$3)
Capex as a % of revenue	1.4%	(0.5%)	(0.4%)

<sup>1</sup> See "Note Regarding Non-GAAP Financial Measures". Also see the Appendix for, among other things, the definition and use of this non-GAAP financial measure, and a reconciliation of historic non-GAAP free cash flow to GAAP cash provided by operations.

<sup>2</sup> "QTQ" reflects change vs. Q4 2024 figures and "YTY" reflects change vs. Q1 2024 figures.

# Balance Sheet

## Balance Sheet (as of March 31, 2025) \$ Millions

Cash and cash equivalents	<b>\$303</b>
Revolver (excluding L/Cs)	<b>\$150</b>
Term Loans	<b>\$737</b>
Net Debt	<b>\$584</b>
GAAP TTM Debt Leverage Ratio <sup>1</sup>	<b>1.5x</b>
Non-GAAP Adjusted TTM Debt Leverage Ratio <sup>1</sup>	<b>1.1x</b>
Total Liquidity <sup>2</sup>	<b>~\$900</b>

### Share Repurchases:

\$75M in Q1 2025  
\$115M 2025 YTD<sup>3</sup>

<sup>1</sup> See "Note Regarding Non-GAAP Financial Measures". See slide 21 for a calculation of GAAP TTM debt leverage ratio and non-GAAP adjusted TTM debt leverage ratio.

<sup>2</sup> Total liquidity is defined as cash and cash equivalents as of March 31, 2025, plus the total availability under Celestica's Revolver.

<sup>3</sup> Represents year to date (YTD) repurchases in 2025 as of the date of this presentation.

## Q2 2025 Guidance<sup>1,2</sup>

Revenue	\$2.575B - \$2.725B
Adjusted Operating Margin (Non-GAAP)	7.2% at the mid-point of revenue and non-GAAP adjusted EPS guidance ranges
Adjusted EPS (Non-GAAP)	\$1.17 - \$1.27

## Q2 2025 Non-GAAP Tax Rate Estimate<sup>1,2</sup>

Adjusted Effective Tax Rate (Non-GAAP) of approximately 20%

<sup>1</sup> See “Note Regarding Non-GAAP Financial Measures.” Also see the Appendix for, among other things, definitions and uses of these non-GAAP financial measures (including ratios based on non-GAAP financial measures) set forth in the table. Guidance reflects management’s expectations as of the date provided and will only be updated through a public announcement. We do not provide reconciliations for our forward-looking non-GAAP financial measures, as we are unable to reasonably estimate the items that we exclude from GAAP to calculate comparable non-GAAP measures without unreasonable effort. This is due to the inherent difficulty of forecasting the timing or amount of various events that have not yet occurred, are out of our control and/or cannot be reasonably predicted, and that would impact the most directly comparable forward-looking GAAP financial measure. For these same reasons, we are unable to address the probable significance of the unavailable information. Forward-looking non-GAAP financial measures may vary materially from the corresponding GAAP financial measures.

<sup>2</sup> Our Q2 2025 Guidance and Q2 2025 Non-GAAP Tax Rate Estimate assumes no material changes to tariff or trade restrictions compared to what are in effect as of April 24, 2025 and no material changes from current macroeconomic trends and uncertainties. Substantially all tariffs paid by Celestica are expected to be recovered from our customers, and are not expected to impact our non-GAAP adjusted EBIAT or non-GAAP adjusted net earning dollars. These amounts are not anticipated to be material at this time.

# Q2 2025 End Market Revenue Outlook<sup>1,2</sup>

Year-over-Year Revenue % Change	
ATS <sup>3</sup>	Flat
Communications	Increase high-fifties
Enterprise <sup>4</sup>	Decrease low-forties

<sup>1</sup> Outlook reflects management’s expectations as of the date provided.

<sup>2</sup> Our Q2 2025 End Market Revenue Outlook assumes no material changes to tariff or trade restrictions compared to what are in effect as of April 24, 2025 and no material changes from current macroeconomic trends and uncertainties. Substantially all tariffs paid by Celestica are expected to be recovered from our customers, and are not expected to impact our non-GAAP adjusted EBIAT or non-GAAP adjusted net earning dollars. These amounts are not anticipated to be material at this time.

<sup>3</sup> ATS consists of A&D, Industrial, HealthTech, and Capital Equipment.

<sup>4</sup> Enterprise consists of Servers and Storage.

## 2025 Annual Outlook<sup>1,2</sup>

	2025 Outlook	Previous 2025 Outlook
Revenue Outlook	\$10.85B	\$10.70B
Adjusted Operating Margin (Non-GAAP)	7.2%	6.9%
Adjusted EPS (Non-GAAP)	\$5.00	\$4.75
Free Cash Flow (Non-GAAP)	\$350M	\$350M

<sup>1</sup> See "Note Regarding Non-GAAP Financial Measures". Outlook reflects management's expectations as of the date provided and will only be updated through a public announcement. We do not provide reconciliations for our forward-looking non-GAAP financial measures, as we are unable to reasonably estimate the items that we exclude from GAAP to calculate comparable non-GAAP measures without unreasonable effort. This is due to the inherent difficulty of forecasting the timing or amount of various events that have not yet occurred, are out of our control and/or cannot be reasonably predicted, and that would impact the most directly comparable forward-looking GAAP financial measure. For these same reasons, we are unable to address the probable significance of the unavailable information. Forward-looking non-GAAP financial measures may vary materially from the corresponding GAAP financial measures.

<sup>2</sup> Our 2025 Annual Outlook assumes no material changes to tariff or trade restrictions compared to what are in effect as of April 24, 2025 and no material changes from current macroeconomic trends and uncertainties. Substantially all tariffs paid by Celestica are expected to be recovered from our customers, and are not expected to impact our non-GAAP adjusted EBIAT or non-GAAP adjusted net earning dollars. These amounts are not anticipated to be material at this time.

# Business Outlook<sup>1,2</sup>

## Advanced Technology Solutions

Revenues expected to be ~flat in 2025

## Connectivity & Cloud Solutions

High-teens percentage revenue growth expected in 2025

### Industrial

---

Demand improvements and program ramps expected to drive growth

### Aerospace & Defense

---

Decision to not renew a margin dilutive program driving lower revenues;  
Base demand remains healthy, supported by new wins

### Capital Equipment

---

Growth driven by strong demand and program ramps

### Enterprise

---

Reacceleration in 2H 2025 driven by ramp of next-gen AI/ML compute program and ramps with a new customer

### Communications

---

Healthy demand for 400G programs and multiple ramping 800G programs with major hyperscaler customers

### Hyperscaler Portfolio

---

Growth driven by networking demand from 800G ramps through 2025, supported by ramps in AI/ML compute in 2H 2025

<sup>1</sup> The information on this slide reflects management's expectations as of the date provided.

<sup>2</sup> Our Business Outlook assumes no material changes to tariff or trade restrictions compared to what are in effect as of April 24, 2025 and no material changes from current macroeconomic trends and uncertainties. Substantially all tariffs paid by Celestica are expected to be recovered from our customers, and are not expected to impact our non-GAAP adjusted EBIAT or non-GAAP adjusted net earning dollars. These amounts are not anticipated to be material at this time.

# Concluding Remarks

Q&A

# First Quarter 2025 Financial Results

\* Refers to notes to our March 31, 2025 unaudited interim condensed consolidated financial statements (Q1 2025 Interim Financial Statements)

<sup>1</sup> Segment margin is segment income as a percentage of segment revenue. Segment income is defined as a segment's revenue less its cost of sales and its allocatable portion of SG&A expenses and research and development expenses. Segment income excludes Miscellaneous Expense (Income), FCC Transitional ADJ, employee SBC expense, TRS FVAs, amortization of intangible assets (excluding computer software), restructuring and other charges, net of recoveries (each defined in slides 19 and 20) and finance costs.

<sup>2</sup> See slides 19 and 20 for, among other things, the definitions and uses of certain non-GAAP financial measures and adjustments.

# Non-GAAP Financial Measures

The non-GAAP financial measures included in this presentation are: adjusted gross profit, adjusted gross margin (adjusted gross profit as a percentage of revenue), adjusted selling, general and administrative expenses (SG&A), adjusted SG&A as a percentage of revenue, adjusted operating earnings (or adjusted EBIAT), adjusted EBITDA, adjusted TTM EBITDA, TTM earnings from operations, adjusted operating margin (non-GAAP operating earnings or adjusted EBIAT as a percentage of revenue), adjusted EBITDA as a percentage of revenue, adjusted net earnings, adjusted EPS, adjusted return on invested capital (adjusted ROIC), free cash flow, adjusted tax expense, adjusted effective tax rate and adjusted TTM debt leverage ratio are further described in the tables in the following slides.

We believe the non-GAAP financial measures herein enable investors to evaluate and compare our results from operations by excluding specific items that we do not consider to be reflective of our core operations, to evaluate cash resources that we generate from our business each period, to analyze operating results using the same measures our chief operating decision makers use to measure performance, and to help compare our results with those of our competitors. In addition, management believes that the use of adjusted tax expense and adjusted effective tax rate provides additional transparency into the tax effects of our core operations, and are useful to management and investors for historical comparisons and forecasting. These non-GAAP financial measures reflect management's belief that the excluded items are not indicative of our core operations.

Non-GAAP financial measures do not have any standardized meaning prescribed by GAAP and therefore may not be directly comparable to similar measures presented by other companies. Non-GAAP financial measures are not measures of performance under GAAP and should not be considered in isolation or as a substitute for any GAAP financial measure. Reconciliations of the non-GAAP financial measures to the most directly comparable GAAP financial measures are provided in the following slides.

We do not provide reconciliations for our forward-looking non-GAAP financial measures, as we are unable to reasonably estimate the items that we exclude from GAAP to calculate comparable non-GAAP measures without unreasonable effort. This is due to the inherent difficulty of forecasting the timing or amount of various events that have not yet occurred, are out of our control and/or cannot be reasonably predicted, and that would impact the most directly comparable forward-looking GAAP financial measure. For these same reasons, we are unable to address the probable significance of the unavailable information. Forward-looking non-GAAP financial measures may vary materially from the corresponding GAAP financial measures.

Our non-GAAP financial measures are calculated by making the following adjustments (as applicable) to our GAAP financial measures:

*Employee SBC expense*, which represents the estimated fair value of stock options, restricted share units and performance share units granted to employees, is excluded because grant activities vary significantly from quarter-to-quarter in both quantity and fair value. We believe excluding this expense allows us to compare core operating results with those of our competitors, who also generally exclude employee SBC expense in assessing operating performance, and may have different granting patterns, equity awards and valuation assumptions.

*Total return swap fair value adjustments (TRS FVAs)* represent mark-to-market adjustments to our TRS Agreement, as the TRS Agreement is re-measured at fair value at each quarter end. We exclude the impact of these non-cash fair value adjustments (which reflect fluctuations in the market price of our common shares recorded in cost of sales, SG&A, or Miscellaneous Expenses (Income)) from period to period as such fluctuations do not represent our ongoing operating performance. In addition, we believe that excluding these non-cash adjustments permits a helpful comparison of our core operating results to our competitors. In accordance with GAAP, TRS FVAs prior to 2024 were recorded in Miscellaneous Expense (Income). Commencing in 2024, the TRS Agreement was treated as an economic hedge with the TRS FVAs recorded in cost of sales and SG&A.

*Transitional hedge reclassifications and adjustments related to foreign currency forward exchange contracts (FCC Transitional ADJ) and interest rate swaps (IRS Transitional ADJ)* were both specifically driven by our transition from IFRS to GAAP. For the purpose of determining our non-GAAP measures, FCC Transitional ADJ were made to cost of sales and SG&A and IRS Transitional ADJ are made to finance costs. Our foreign currency forward exchange contracts and interest rate swaps that we entered prior to 2024 were accounted for as either cash flow hedges (qualified for hedge accounting) or economic hedges under IFRS. However, those contracts were not accounted for as such under GAAP until January 1, 2024, resulting in FCC Transitional ADJ and IRS Transitional ADJ. Had we been able to designate those foreign currency forward exchange contracts and interest rate swaps under GAAP from their inception, they would have qualified as cash flow or economic hedges under GAAP, and no FCC Transitional ADJ or IRS Transitional ADJ would have been required under GAAP. FCC Transitional ADJ and IRS transitional ADJ are not reflective of the on-going operational impacts of our hedging activities and are excluded in assessing operating performance.

*Amortization of intangible assets (excluding computer software)* consist of non-cash charges for intangible assets that are impacted by the timing and magnitude of acquired businesses. Amortization of intangible assets varies among our competitors, and we believe that excluding these charges permits a helpful comparison of core operating results to our competitors who also generally exclude amortization charges in assessing operating performance.

# Non-GAAP Financial Measures...continued

*Restructuring and Other Charges (Recoveries)* consist of, when applicable: Restructuring Charges (Recoveries) (defined below); Transition Costs (Recoveries) (defined below); consulting, transaction and integration costs related to potential and completed acquisitions; legal settlements (recoveries); in Q2 2023 and Q3 2023, costs associated with the conversion and underwritten public sale of our shares by Onex Corporation (Onex), our then-controlling shareholder, and commencing in Q2 2023, related costs pertaining to our transition as a U.S. domestic filer. We exclude these charges and recoveries because we believe that they are not directly related to ongoing operating results and do not reflect our expected future operating expenses after completion of the relevant actions. Our competitors may record similar items at different times, and we believe these exclusions permit a helpful comparison of our core operating results with those of our competitors who also generally exclude these items in assessing operating performance.

*Restructuring Charges (Recoveries)*, consist of costs or recoveries relating to: employee severance, lease terminations, site closings and consolidations, accelerated depreciation of owned property and equipment which are no longer used and are available for sale, and reductions in infrastructure.

*Transition Costs (Recoveries)* consist of costs and recoveries in connection with: (i) the transfer of manufacturing lines from closed sites to other sites within our global network; (ii) the sale of real properties unrelated to restructuring actions (Property Dispositions); and (iii) specified charges or recoveries related to the Purchaser Lease (defined below). Transition Costs consist of direct relocation and duplicate costs (such as rent expense, utility costs, depreciation charges, and personnel costs) incurred during the transition periods, as well as cease-use and other costs incurred in connection with idle or vacated portions of the relevant premises that we would not have incurred but for these relocations, transfers and dispositions. As part of our 2019 Toronto real property sale, we entered into a related 10-year lease for our then-anticipated headquarters (Purchaser Lease). In November 2022, we extended the lease (on a long-term basis) on our current corporate headquarters due to several Purchaser Lease commencement date delays. In Q3 2023, we executed a sublease for a portion of the leased space under the Purchaser Lease. We record charges related to the sublet of the Purchaser Lease (which commenced in June 2024) as Transition Costs. We believe that excluding Transition Costs and Recoveries permits a helpful comparison of our core operating results from period-to-period, as they do not reflect our ongoing operations once these specified events are complete.

*Miscellaneous Expense (Income)* consists primarily of: (i) certain net periodic benefit costs (credits) related to our pension and post-employment benefit plans consisting of interest costs and expected returns on pension balances, and amortization of actuarial gains or losses; and (ii) gains or losses related to our TRS Agreement and foreign currency forward exchange contracts and interest rate swaps that we entered into prior to 2024. Those derivative instruments were accounted for as either cash flow hedges (qualifying for hedge accounting) or economic hedges under IFRS. However, those contracts were not accounted for as such under GAAP until January 1, 2024. Certain gains and losses related to those contracts were recorded in Miscellaneous Expense (Income). See FCC Transitional ADJ, IRS Transitional ADJ and TRS FVAs above. We exclude such items because we believe they are not directly related to our ongoing operating results.

Non-core tax impacts are excluded, as we do not believe these costs or recoveries reflect our core operating performance and vary significantly among our competitors who also generally exclude such items in assessing operating performance. In addition, in calculating adjusted net earnings, adjusted EPS, adjusted tax expense and adjusted effective tax rate for the 2024 periods, management also excluded the one-time Q1 2024 portion of the negative tax impact arising from the enactment of Pillar Two (global minimum tax) legislation in Canada recorded in Q2 2024 and incremental withholding tax accrued in such quarter to minimize its impact (Pillar Two Tax Adjustments), as such portion is not attributable to our on-going operations for subsequent periods.

Our non-GAAP financial measures include the following:

*Adjusted operating earnings (Adjusted EBIAT)* is defined as GAAP earnings from operations excluding the impact of Employee SBC expense, TRS FVAs, FCC Transitional ADJ, Amortization of intangible assets (excluding computer software), and Restructuring and Other Charges (Recoveries). Adjusted operating margin is adjusted operating earnings as a percentage of GAAP revenue. Management uses adjusted operating earnings (adjusted EBIAT) as a measure to assess performance related to our core operations.

*Adjusted net earnings* is defined as GAAP net earnings before the impact of Employee SBC expense, TRS FVAs, FCC Transitional ADJ, amortization of intangible assets (excluding computer software), Restructuring and Other Charges (Recoveries), IRS Transitional ADJ, Miscellaneous Expense (Income) and adjustment for taxes. Adjusted net earnings per share is calculated by dividing adjusted net earnings by the number of diluted weighted average shares outstanding. Management uses adjusted net earnings as a measure to assess performance related to our core operations.

*Free cash flow* is defined as cash provided by (used in) operations after the purchase of property, plant and equipment (net of proceeds from the sale of certain surplus equipment and property, when applicable). Free cash flow does not represent residual cash flow available to Celestica for discretionary expenditures. Management uses free cash flow as a measure, in addition to GAAP cash provided by (used in) operations, to assess our operational cash flow performance. We believe free cash flow provides another level of transparency to our ability to generate cash from normal business operations.

*Adjusted ROIC* is calculated by dividing annualized adjusted EBIAT by average net invested capital for the period. Net invested capital (calculated in the tables in the following slides) is derived from GAAP financial measures, and is defined as total assets less: cash, ROU assets (operating and finance leases), accounts payable, accrued and other current liabilities (excluding finance and operating lease liabilities), provisions, and income taxes payable. Management uses adjusted ROIC as a measure to assess the effectiveness of the invested capital we employ to build products or provide services to our customers, by quantifying how well we generate earnings relative to the capital we have invested in our business.
