FOR IMMEDIATE RELEASE

TUESDAY, FEBRUARY 20, 2001

CELESTICA ANNOUNCES FIVE YEAR US\$4 BILLION
GLOBAL STRATEGIC ALLIANCE WITH AVAYA

STRATEGIC ALLIANCE INCLUDES
ACQUISITION OF MANUFACTURING OPERATIONS

TORONTO, Canada - Celestica Inc. (NYSE, TSE: CLS), a world leader in electronics manufacturing services (EMS), today announced that it has entered into a global strategic alliance with Avaya, as Avaya's primary EMS provider. Avaya is a global leader in enterprise communications systems. As part of this arrangement, Celestica has signed a definitive agreement to acquire Avaya's manufacturing, repair and supply chain operations in Denver, Colo., and Little Rock, Ark., and certain other operating assets.

The deal will include a five-year global supply agreement worth approximately US\$4 billion in total expected revenue. The aggregate purchase price is approximately US\$200 million. About 1,400 Avaya employees are expected to join Celestica as part of this transaction. Further terms were not disclosed. The deal is expected to close in a phased approach throughout Q2 and Q3, 2001, and is subject to normal closing conditions, including regulatory approvals and union ratification.

This transaction will position Celestica as Avaya's primary outsourcing partner in the area of printed circuit board and system assembly and test, repair and supply chain management for a broad range of its telecommunications products. These products include enterprise communications servers, interactive voice response systems, voice messaging consoles, wireless systems, IP telephony products and call management systems.

The transaction aligns Celestica in a long term, strategic relationship with a world market leader in enterprise communications systems and further enhances and diversifies Celestica's strong communications and internet infrastructure customer-base which includes over 35 companies in the areas of optical, data networking, wireless and high-speed access.

"Celestica is delighted to expand its communications customer base with the addition of Avaya," said Eugene Polistuk, chairman and CEO, Celestica. "Not only does this relationship add a top tier communications customer to Celestica, but it brings with it a highly-skilled employee base, experienced in manufacturing high quality communications programs. This intellectual asset base will further leverage Celestica's plans for future growth in data and voice communications."

"Avaya's agreement with Celestica follows the contract manufacturing strategy we described at the time of our spin-off from Lucent Technologies," said Don Peterson, Avaya president and CEO. "It completes a key part of our restructuring and begins a new phase in our strategy for reinvestment and growth. Avaya's move to contract manufacturing with Celestica, an industry leader in electronics manufacturing services, will ensure for our customers that the quality and reliability of our traditional flagship products will continue to be maintained. At the same time, it allows us to focus more on designing and developing the next generation of new enterprise solutions and services such as converged voice and data, customer relationship management and unified communications."

ABOUT AVAYA
